Prayer is offered by the Reverend Mike Morris, Senate Chaplain, with excerpts from Frederick Buechner's sermon, The Magnificent Defeat, as follows:

"Some days, Oh God, we choose the wrong battle and the wrong opponent.

"That truth is illustrated by the story of two monks, one old and the other a novice, walking together in the monastery. The novice turns to the saintly old monk and asks, 'Father, do you still wrestle with the Devil?'

"'No, my son,' he answered. 'I am much too old and too wise for that: You see, now I wrestle with God.'

"'With God?' the young novice exclaimed. 'But Father, do you hope to win?'

"'Oh, no, my child,' said the old monk. And limping off into the morning brightness, he smiled and said, 'I hope to lose.'

"Allow us, Dear Lord, with all the battles we face in this world, that one Magnificent Defeat! Amen."

"**§ 143-15.2. Use of General Fund credit balance.**

The State Controller shall reserve up to one-fourth of any credit balance, as determined on a cash basis, remaining in the General Fund at the end of each fiscal year to the Savings Reserve Account as provided in G.S. 143-15.3, unless that would result in the Savings Reserve Account having funds in excess of five percent (5%) of the amount appropriated the preceding year for the General Fund operating budget, including local government tax-sharing funds; in that case, only funds sufficient to reach the five percent (5%) level shall be reserved. The State Controller shall also reserve the lesser of (i) one-fourth of any credit balance, as determined on a cash basis, remaining in the General Fund and (ii) one and one-half percent (1.5%) of the replacement value of all State buildings supported from the General Fund, at the end of each fiscal year to the Repairs and Renovations Reserve Account as provided in G.S. 143-15.3A. The General Assembly may appropriate that part of the anticipated General Fund credit balance not expected to be reserved to the Savings Reserve Account or the Repairs and Renovations Reserve Account only for capital improvements or other one-time expenditures."

(b) Chapter 143 of the General Statutes is amended by adding a new section to read:

(5) A proposal for expenditure of the funds in the Repairs and Renovations Reserve Account, which is established in G.S. 143-15.3A. The Director shall consider the data from the Facilities Condition and Assessment Program in the Office of State Construction when establishing priorities for the proposed expenditure of these funds.

It shall be a compliance with this section by each incoming Governor, at the first session of the General Assembly in his term, to submit the budget report with the message of the outgoing Governor, if he shall deem it proper to prepare such message, together with any comments or recommendations thereon that he may see fit to make, either at the time of the submission of the said report to the General Assembly, or at such other time, or times, as he may elect and fix.

The Secretary ~~of Revenue~~ shall keep a separate record by counties of the taxes collected under this Article. The Secretary shall allocate the amount ~~appropriated~~ of revenue to be distributed under ~~this section~~ subsection (a) to the counties ~~according to the county in which the taxes were collected.~~ in accordance with the tax records. The amounts so allocated to each county shall in turn be allocated between the county and the municipalities in the county in proportion to the total amount of ad valorem taxes levied by each during the fiscal year preceding the distribution. In dividing these amounts between each county and its municipalities, the Secretary shall treat taxes levied by a merged school administrative unit described in G.S. 115C-513 in a part of the unit located in a county as taxes levied by the county in which that part is located. After making these allocations, the Secretary ~~of Revenue~~ shall certify to the State Controller and to the State Treasurer the amount to be distributed to each county and municipality in the State. The chair of each board of county commissioners and the mayor of each municipality shall report to the Secretary ~~of Revenue~~ information requested by the Secretary to enable the Secretary to allocate the amount ~~appropriated by this section.~~ distributed by this subsection. If a county or municipality fails to make a requested report within the time allowed, the Secretary may disregard the county or municipality in allocating the amount ~~appropriated by this section.~~ distributed by this subsection.

(c) Use of Revenue. — The amount distributed to each county and municipality shall be used by the county or municipality in proportion to property tax levies made by it for the various funds and activities of the county or municipality, unless the county or municipality has pledged the amount to be distributed to it under this section in payment of a loan agreement with the North Carolina Solid Waste Management Capital Projects Financing Agency. A county or municipality that has pledged amounts distributed under this section in payment of a loan agreement with the Agency may apply the amount the loan agreement requires.

~~(b)~~ (d) Definition. — For purposes of this section, the term 'municipality' includes any urban service district defined by the governing board of a consolidated city-county, and the amounts due thereby shall be distributed to the government of the consolidated city-county."

"(b) Subsequent Distributions. — As soon as practicable after January 1, 1990, the Secretary shall pay to each county and city the amount it received under subsection (a) in 1989 plus an amount equal to the county or city average rate multiplied by the value of the items described in subdivisions (ii) and (iii) of subsection (a) that were required to be listed and assessed as of January 1, 1987, and were listed on or before September 1, 1987, in the county or city, plus or minus the percentage of this product that equals the percentage by which State personal income has increased or decreased during the most recent 12-month period for which State personal income data has been compiled by the Bureau of Economic Analysis of the United States Department of Commerce. As soon as practicable after January 1, 1990, the Secretary shall also pay to each county and city an amount equal to the average rate for each special district for which the county or city collected taxes in 1987, but whose tax rates were not included in the county or city's rates, multiplied by the value of the items described in subdivisions (ii) and (iii) of subsection (a) that were required to be listed and assessed as of January 1, 1987, and were listed on or before September 1, 1987, in the district, plus or minus the percentage of this product that equals the percentage by which State personal income has increased or decreased during the most recent 12-month period for which State personal income data has been compiled by the Bureau of Economic Analysis of the United States Department of Commerce. As soon as practicable after January 1, 1991, except as provided in subsection (f), the Secretary shall pay to each county and city the amount it received under this section the preceding year plus an amount equal to the county or city average rate multiplied by the value of the items described in subdivision (v) of subsection (a) contained in the list submitted by the county or city, plus or minus the percentage of this product that equals the percentage by which State personal income has increased or decreased during the most recent 12-month period for which State personal income data has been compiled by the Bureau of Economic Analysis of the United States Department

of Commerce. As soon as practical after January 1, 1992, except as provided in subsection (f), the Secretary shall distribute to each county and city the amount it received under this section the preceding year. On or before April 30, 1993, except as provided in subsection (f), the Secretary shall distribute to each county and city ninety-nine and eighty-one one-hundredths percent (99.81%) of the amount it received under this section the preceding year. Thereafter, until August 1995, except as provided in subsection (f), on or before April 30 of each year, the Secretary shall distribute to each county and city the amount it received under this section the preceding year. On or before August 30, 1995, the Secretary shall determine for each county and city the amount it received in April 1995 under this section. Beginning in August 1995 and each year thereafter, except as provided in subsection (f), the Secretary shall distribute to each county and city sixty percent (60%) of this amount on or before August 30 and the remaining forty percent (40%) on or before the following April 30.

Of the funds received by each county and city pursuant to this subsection in 1990, the portion that was received because the county or city was collecting taxes for a special district (either because the district's tax rate was included in the city or county's rate or because the Secretary paid the county or city the product of the district's average rate and the value of the inventories and other items in the district) shall be distributed among the districts in the county or city as soon as practicable after the city or county receives the funds. The county or city shall distribute to each special district in the county or city the amount it distributed to the district in 1989 plus an amount equal to the average rate for the district multiplied by the value of the items, other than inventory, described in subdivisions (ii) and (iii) of subsection (a) that were required to be listed and assessed as of January 1, 1987, and were listed on or before September 1, 1987, in the district, plus or minus the percentage of this product that equals the percentage by which State personal income has increased or decreased during the most recent 12-month period for which State personal income data has been compiled by the Bureau of Economic Analysis of the United States Department of Commerce.

Each year thereafter, until August 1995, as soon as practicable after receiving funds under this subsection, every county and city shall distribute among the special districts for which the county or city collects tax an amount equal to the amount it distributed among such districts the previous year. Each year thereafter, beginning in August 1995, as soon as practical after receiving funds under this subsection in August, every county and city shall distribute among the special districts for which the county or city collects tax an amount equal to sixty percent (60%) of the amount it distributed among such districts in April 1995, and as soon as practicable after receiving funds under this subsection in April, every county and city shall distribute among the special districts for which the county or city collects tax an amount equal to forty percent (40%) of the amount it distributed among such districts in April 1995. ~~The~~

The Local Government Commission may adopt rules for the resolution of disputes and correction of errors in the distribution among special districts provided in this subsection. In addition, the Local Government Commission may adopt rules for the reallocation of funds when a special district is dissolved, merged, or consolidated, or when a special district ceases to levy tax, either temporarily or permanently."

(c) Effective July 1, 1995, G.S. 105-277A(b) reads as rewritten:

"(b) First Per Capita Distribution. — As soon as practicable after January 1 of 1989, the Secretary shall distribute to each taxing unit the unit's per capita share of the sum of fifteen million seven hundred forty-five thousand dollars ($15,745,000). Thereafter, as soon as practicable after January 1 of 1990 and 1991, the Secretary shall distribute to each taxing unit the unit's per capita share of an amount equal to the sum distributed to all taxing units the previous year under this subsection plus or minus the product of the sum distributed the previous year and the percentage by which State personal income has increased or decreased during the most recent 12-month period for which State personal income data has been compiled by the Bureau of Economic Analysis of the United States Department of Commerce.

~~Thereafter, on~~ On or before April 30 of ~~each year~~ 1992, 1993, 1994, and 1995, the Secretary shall distribute to each taxing unit the unit's per capita share of the sum that this subsection provided was to be distributed to all taxing units in 1991. Beginning August 1995 and each year thereafter, the Secretary shall determine for each taxing unit the unit's per capita share of the sum that this subsection provided was to be distributed to all taxing units in 1991. Each year, the Secretary shall distribute to each taxing unit sixty percent (60%) of this share on or before August 30 and the remaining forty percent (40%) of this share on or before the following April 30.

To make the per capita distributions required by this subsection, the Secretary shall first allocate the sum to be distributed among the counties on a per capita basis. The Secretary shall then compute a per capita distributable amount for each county by dividing the amount allocated to a county by the total population of the county, plus the population of any incorporated towns and cities located in the county. Each taxing unit in a county, including the county itself, shall receive the product of the population of the taxing unit and the per capita distributable amount for that county.

A city or county that receives funds under this subsection and that collects taxes for another taxing unit shall distribute part of the taxes received by it to the taxing unit for which it collects tax. The distribution shall be made on the basis of the proportionate amount of ad valorem taxes levied, for the most recent fiscal year beginning July 1, by the city or county and by all the taxing units for which the city or county collects tax. This distribution shall be made as soon as practicable after a city or county receives funds from the State under this section."

(d) Effective July 1, 1995, G.S. 105-277A(c) reads as rewritten:

"(c) Second Per Capita Distribution. — On or before March 20, 1989, the Secretary shall allocate to each county the county's per capita share of the sum of thirty-nine million dollars ($39,000,000).

Each year ~~thereafter,~~ thereafter through April 1995, on or before April 30, the Secretary of Revenue shall allocate to each county the amount it received the previous year under this subsection. On or before August 30, 1995, the Secretary shall determine for each county the amount it received in April 1995 under this subsection. Beginning in August 1995 and each year thereafter, the Secretary shall distribute sixty percent (60%) of this amount to each county on or before August 30 and the remaining forty percent (40%) to each county on or before the following April 30.

Amounts allocated to a county under this subsection shall in turn be divided and distributed between the county and the cities located in the county in proportion to the total amount of ad valorem taxes levied by each during the fiscal year preceding the distribution. For the purposes of this section, the amount of the ad valorem taxes levied by a county or city shall include any ad valorem taxes collected by the county or city in behalf of a special district. "(a) The Commission shall:

(1) Develop standards that outline what a high school graduate should know and a series of benchmarks throughout the K-12 grades structured to identify how well a student is progressing towards the graduation standards. Standards shall include how well a student is able to apply knowledge gained in such core subject areas as mathematics, science, communication, history, geography, and the arts.

(2) Define a system of benchmarks at appropriate grade levels requiring students to demonstrate an ability to understand and apply what is expected of them in these standards.

(3) Work with the Department of Public Instruction to ensure that end-of-course assessments for core subjects are consistent with these standards and with benchmarks set by the Commission leading to these standards.

(4) Review and recommend a system of benchmark measurements that appropriately assess the requirements as outlined in subdivisions (2) and (3) of this subsection. The Commission may consider multiple methods of developmental assessment.

(5) Recommend ways to ensure that each student is challenged to the fullest extent of the student's ability by describing what actions shall be taken when a student's level of achievement on a standard is less than the student's potential. The Commission shall estimate the number of students for whom these actions should be taken each year and the cost of doing so.

(6) Recommend methods to measure each high school graduate's performance on the standards, including a system that incorporates a variety of measurement instruments used to assess a student's progress throughout the student's school career. These measures may be used to assess a graduate's preparedness for work, continued schooling, and successful living. The Commission shall estimate the number of students who are unlikely to meet the performance standards for high school graduation each year, describe what actions should be taken to enable these students to meet the standards, and estimate the cost of those actions.

(a) Funds appropriated in this act to the Board of Governors of The University of North Carolina for continuation of financial assistance to the medical schools of Duke University and Wake Forest University shall be disbursed on certifications of the respective schools of medicine that show the number of North Carolina residents as first-year, second-year, third-year, and fourth-year students in the medical school as of November 1, 1993, and November 1, 1994. Disbursement to Wake Forest University shall be made in the amount of eight thousand dollars ($8,000) for each medical student who is a North Carolina resident, one thousand dollars ($1,000) of which shall be placed by the school in a fund to be used to provide financial aid to needy North Carolina students who are enrolled in the medical school. The maximum aid given to any student from this fund in a given year may not exceed the amount of the difference in tuition and academic fees charged by the school and those charged at the School of Medicine at the University of North Carolina at Chapel Hill.

Disbursement to Duke University shall be made in the amount of five thousand dollars ($5,000) for each medical student who is a North Carolina resident, five hundred dollars ($500.00) of which shall be placed by the school in a fund to be used to provide student financial aid to financially needy North Carolina students who are enrolled in the medical school. No individual student may be awarded assistance from this fund in excess of two thousand dollars ($2,000) each year. In addition to this basic disbursement for each year of the biennium, a disbursement of one thousand dollars ($1,000) shall be made for each medical student who is a North Carolina resident in the first-year, second-year, third-year, and fourth-year classes to the extent that enrollment of each of those classes exceeds 30 North Carolina students.

The Board of Governors shall establish the criteria for determining the eligibility for financial aid of needy North Carolina students who are enrolled in the medical schools and shall review the grants or awards to eligible students. The Board of Governors shall adopt rules for determining which students are residents of North Carolina for the purposes of these programs. The Board of Governors shall also make any regulations as necessary to ensure that these funds are used directly for instruction in the medical programs of the schools and not for religious or other nonpublic purposes. In recognition of North Carolina's need for primary care physicians, Bowman Gray School of Medicine and Duke University School of Medicine shall each prepare a plan with the goal of encouraging North Carolina residents to enter the primary care disciplines of general internal medicine, general pediatrics, family medicine, obstetrics/gynecology, and combined medicine/pediatrics and to strive to have at least fifty percent (50%) of North Carolina residents graduating from each school entering these disciplines. These schools of medicine shall present their plans to the Board of Governors of The University of North Carolina by April 15, 1994. The Board of Governors shall report to the Joint Legislative Education Oversight Committee by May 15, 1994, on the status of these efforts to strengthen primary health care in North Carolina.

(b) The Board of Governors of The University of North Carolina shall set goals for the Schools of Medicine at the University of North Carolina at Chapel Hill and the School of Medicine at East Carolina University for increasing the percentage of graduates who enter residencies and careers in primary care. A minimum goal should be at least fifty percent (50%) of graduates entering primary care disciplines. Each school shall submit a plan with strategies to reach these goals of increasing the number of graduates entering primary care disciplines to the Board by April 15, 1994. The Board of Governors shall report to the Joint Legislative Education Oversight Committee by May 15, 1994, on the status of these efforts to strengthen primary health care in North Carolina.

Primary care shall include the disciplines of family, medicine, general pediatric medicine, general internal medicine, internal medicine/pediatrics, and obstetrics/gynecology.

(c) The Board of Governors of The University of North Carolina shall further initiate whatever changes are necessary on admissions, advising, curriculum, and other policies for State-operated medical schools to ensure that larger proportions of medical students seek residencies in primary care disciplines. The Board shall work with the Area Health Education Centers and other entities, adopting whatever policies it considers necessary to ensure that residency programs have sufficient medical residency positions for medical school graduates in these primary care specialties.

(d) The progress of the private and public medical schools towards increasing the number and proportion of graduates entering primary care shall be monitored annually by the Board of Governors of The University of North Carolina. Monitoring data shall include (i) the entry of State-supported medical graduates into primary care residencies, and (ii) the specialty practices by a physician as of a date five years after graduation. The Board of Governors shall certify data on graduates, their residencies, and subsequent careers by October 1 of each calendar year, beginning in October of

1995, to the Fiscal Research Division of the Legislative Services Office and to the Joint Legislative Education Oversight Committee.

(e) The information provided in subsection (d) of this section shall be made available to the Appropriations Committees of the General Assembly for their use in future funding decisions on medical education.

GPAC/COMMUNITY COLLEGES

Sec. 117. COMMUNITY COLLEGE COST OF EDUCATION POLICY.

(a) The General Assembly finds that the tuition policy of the North Carolina Community College System needs to be reexamined in order to reflect better the constitutional mandate to provide higher education free of expense "as far as practicable" by reevaluating the relationship of tuition to the cost of education and by determining what costs must be made up of tuition charged in order to ensure that all eligible North Carolinians are indeed guaranteed a public higher education in the North Carolina Community College System at the lowest possible cost while maintaining a public community college system that is worthy of the support of all North Carolinians.

(b) The General Assembly finds that tuition and required fees charged for community colleges should be a limited amount of resident students' per capita student funding.

(c) The State Board of Community Colleges shall develop a tuition/fee policy consistent with law that limits tuition and required fees to a specific percentage of less than one-fifth of the per capita student funding for resident students attending community colleges.

(d) The State Board of Community Colleges shall present its plan for implementing the tuition adjustments pursuant to this section to the General Assembly by April 1, 1994.

(e) G.S. 115D-5(a) reads as rewritten:

"(a) The State Board of Community Colleges may adopt and execute such policies, regulations and standards concerning the establishment, administration, and operation of institutions as the State Board may deem necessary to insure the quality of educational programs, to promote the systematic meeting of educational needs of the State, and to provide for the equitable distribution of State and federal funds to the several institutions.

The State Board of Community Colleges shall establish standards and scales for salaries and allotments paid from funds administered by the State Board, and all employees of the institutions shall be exempt from the provisions of the State Personnel Act. (f) This section becomes effective July 1, 1993.

Sec. 118. COMMUNITY COLLEGE SYSTEM FUNDING GOAL.

(a) It is the goal of the General Assembly to increase the per student funding for the North Carolina Community College System, as soon as fiscal conditions permit, to a level more comparable to national averages for similar institutions.

(b) This section becomes effective July 1, 1993.

Sec. 119. COMMUNITY COLLEGE STUDY.

The State Board and the Monitoring Committee, as part of the review under this act, shall:

(1) Thoroughly examine the mission and structure of the community college system based upon a regional review of program needs in order to facilitate the most efficient use of system resources. This examination shall include:

a. Defining enlarged service areas for community colleges based upon the needs of the respective service areas,
b. Evaluating the need to consolidate, eliminate, or modify the status of existing community colleges and multicampus and off-campus centers,

(2) Assess the manner in which the community college system can most effectively meet the current and future needs of business and industry and the adult population of North Carolina.

(3) Develop a regional program structure to facilitate effective program planning, efficient use of resources, the implementation of statewide curriculum standards, and consolidated high-quality programs. The regional structure shall be the unit used for the purposes of comprehensive planning and budgeting in the community college system. The criteria used to determine the manner in which the community college system shall be restructured into newly defined regions may include, in addition to other appropriate criteria, the following:
a. Location of the nearest college, campus, or off-campus center;
b. New or anticipated population to be served;
c. Existing and proposed transportation corridors and facilities;
d. Programs proposed compared to the location of the nearest similar program;
e. Feasibility of delivering programs using technology;
f. Use and availability of facilities of local school systems;
g. Potential impact on enrollment of nearby institutions; and
h. Geographical redistribution of college transfer programs.

(4) Establish guidelines for multicampus colleges and off-campus centers that recognize the availability of technology and transportation, that locate any new facilities to minimize the impact on existing colleges, campuses, and centers, and that apply regional program-sharing principles. There shall be no new colleges, multicampus colleges, or off-campus centers established within the North Carolina Community College System until the State Board adopts these guidelines, at which time the moratorium shall be lifted.

(5) Develop a program-based funding system, including a full-time equivalency component and specific goal performance components, in order to encourage the community colleges to meet particular State needs or goals. The State Board of Community Colleges may propose an initial set of goals.

(6) Establish standards for the periodic review of community college programs including standards for the termination of programs.

(7) Develop an articulation policy that assures students taught at any institution under the jurisdiction of the State Board of Education, the State Board of Community Colleges, or the Board of Governors of The University of North Carolina may transfer credit to other institutions within these systems in order to eliminate the necessity of repetition of instruction in the same areas so that costs to the student and to the State are minimized.

(8) Design, within the community college system, Programs for Excellence, which shall be world-class model programs in each curriculum program area, to be implemented throughout the community college system at each of the institutions authorized to offer each program. These Programs shall include model curricula, establish curriculum standards, and update curricula in response to changes in technologies and market conditions.

(9) Study any additional issue the State Board of Community Colleges or the Monitoring Committee considers appropriate.

(b) The State Board of Community Colleges shall make interim reports to the Joint Legislative Education Oversight Committee no later than April 15, 1994, and no later than January 15, 1995. Thereafter, the State Board shall make annual reports to the Joint Legislative Education Oversight Committee by January 15 of each year until the Monitoring Committee terminates, at which time the State Board shall make a final report.

(c) This section shall remain in effect until terminated by the General Assembly.

Sec. 120. **COMMUNITY COLLEGE SCHOLARSHIPS.**

(a) The Department of Community Colleges shall develop a plan to establish a Community College System Challenge Grant Scholarship Fund. The plan shall be presented to the 1994 Regular Session of the 1993 General Assembly. The plan shall address initial funding (method and amounts) as well as matching contributions from non-State contributions.

(b) It is the goal of the General Assembly that the Challenge Grant Scholarship Fund be developed for the benefit of students with demonstrated financial need in the North Carolina Community College System.

The State Board of Education shall require the local school administrative units receiving career development funds to modify their differentiated pay plans for the 1994-95 fiscal year so that the cost of the differentiated pay plan equals (i) five percent (5%) of teacher and administrator salaries and of the employer's contributions for social security and retirement, for the prior fiscal year, and (ii) the amount of local funds available for differentiated pay.

It is the intent of the General Assembly that this reduction in appropriations not result in employees receiving less on a monthly basis in salary and State-funded bonuses during the 1994-95 fiscal year than they received on a monthly basis during the 1993-94 fiscal year so long as the employees qualify for bonuses under the local differentiated pay plan.

Provided, however, this salary schedule sets the entry level salary of an assistant principal three percent (3%) higher than the salary of a teacher with a "G" certificate with four years of experience, and it contains an approximate two percent (2%) increase between each step. If the salary schedule for teachers with "G" certificates is modified for subsequent fiscal years, the State Board of Education shall modify this salary schedule accordingly.

(c) The appropriate classification for placement of principals and assistant principals on the salary schedule shall be determined in accordance with the following schedule:

Grade	Classification	Number of Teachers Supervised
1	Assistant Principal	
	Principal I	Less than 11 Teachers
2	Principal II	11-21 Teachers
3	Principal III	22-32 Teachers
4	Principal IV	33-43 Teachers
5	Principal V	44-54 Teachers
6	Principal VI	55-65 Teachers
7	Principal VII	More than 65 Teachers.

The number of teachers supervised includes teachers and assistant principals paid from State funds only; it does not include teachers or assistant principals paid from non-State funds or the principal or teacher assistants.

(d) An assistant principal shall be placed on the step on the salary schedule that reflects total years of experience as a certificated employee of the public schools.

A principal shall be placed on the step on the salary schedule that reflects total number of years of experience as a certificated employee of the public schools and an additional step for every three years of experience as a principal.

(e) Notwithstanding any other provision of this section, the certified base salary of a principal or assistant principal shall not increase less than one percent (1%) or more than three percent (3%) as a result of placement on the salary schedule in accordance with this section. If placement on a grade and step of the salary schedule in accordance with this section would result in a principal or assistant principal receiving a salary increase of from one percent (1%) to three percent (3%), the principal or assistant principal shall be placed on a grade and step of the salary schedule in accordance with this section. If placement on a grade and step of the salary schedule in accordance with this section would result in a principal or assistant principal receiving a salary increase of less than one percent (1%), the principal or assistant principal shall be placed on the lowest grade and step with a salary that is at least a one percent (1%) salary increase for the principal or assistant principal. If placement on a grade and step of the salary schedule in accordance with this section would result in a principal or assistant principal receiving a salary increase of more than three percent (3%), the principal or assistant principal shall be placed on the lowest grade and step with a salary that is at least a three percent (3%) salary increase for the principal or assistant principal.

(f) Principals and assistant principals with certification based on academic preparation at the six-year degree level shall be paid an additional one hundred twenty-six dollars ($126.00) per month. Principals and assistant principals with certification based on academic preparation at the doctoral degree level shall be paid an additional two hundred fifty-three dollars ($253.00) per month.

(g)(1) There shall be no State requirement that superintendents in each local school unit shall receive in State-paid salary at least one percent (1%) more than the highest paid principal receives in State salary in that school unit: Provided, however, the additional State-paid salary a superintendent who was employed by a local school administrative unit for the 1992-93 fiscal year received because of that requirement shall not be reduced because of this subsection for subsequent fiscal years that the superintendent is employed by that local school administrative unit so long as the superintendent is entitled to at least that amount of additional State-paid salary under the rules in effect for the 1992-93 fiscal year.

(2) Section 19.1(g) of Chapter 1137 of the 1979 Session Laws, as rewritten by Section 97 of Chapter 1086 of the 1987 Session Laws, is repealed.

(h) Longevity pay for principals and assistant principals shall be as provided for State employees.

(i)(1) If a principal is reassigned to a higher job classification because the principal is transferred to a school within a local school administrative unit with a larger number of State-allotted teachers, the principal shall be placed on the salary schedule as if the principal had served the principal's entire career as a principal at the higher job classification.

(2) If a principal is reassigned to a lower job classification because the principal is transferred to a school within a local school administrative unit with a smaller number of State-allotted teachers, the principal shall be placed on the salary schedule as if the principal had served the principal's entire career as a principal at the lower job classification.

This subdivision applies to all transfers on or after the ratification date of this act, except transfers in school systems that have been created, or will

be created, by merging two or more school systems. Transfers in these merged systems are exempt from the provisions of this subdivision for one calendar year following the date of the merger.

(j) The State Board of Education shall adopt rules for placing principals and assistant principals who have experience in other states on the salary schedule.

Principals and assistant principals who are initially employed in a public school in North Carolina shall be placed on the "G" teacher salary schedule in accordance with their total experience in education and then given a percentage increase for assignment to the specific school-based administrator classification. The percentage increase shall be computed as follows:

"G" teacher salary + 4% for assignment to Assistant Principal
4% for assignment to Principal I
6% for assignment to Principal II
8% for assignment to Principal III
10% for assignment to Principal IV
12% for assignment to Principal V
14% for assignment to Principal VI
16% for assignment to Principal VII.

(k) The Joint Legislative Education Oversight Committee may consider the current salary schedules for school administrators other than principals and assistant principals and may recommend any needed changes to those salary schedules.

SALARIES FOR NONCERTIFIED PUBLIC SCHOOL EMPLOYEES

Sec. 133. (a) G.S. 115C-12(16) reads as rewritten:

"(16) Power with Regard to Salary Schedules. —

a. Support personnel refers to all public school employees who are not required by statute or regulation to be certified in order to be employed. The State Board of Education is authorized and empowered to adopt all necessary rules for full implementation of all schedules to the extent that State funds are made available for support personnel.

b. Salary schedules for the following public school support personnel shall be adopted by the State Board of Education: school finance officer, office support personnel, property and cost clerks, teacher assistants, maintenance supervisors, custodial personnel, and transportation personnel. The Board shall classify these support positions in terms of uniform pay grades included in the salary schedule of the State Personnel Commission.

Prior to the 1995-96 school year, local boards of education shall place State-allotted office support personnel, teacher assistants, and custodial personnel on the salary schedule adopted by the State Board of Education so that the average salary paid is the State-allotted amount for the category. In placing employees on the salary schedule, the local board shall consider the education, training, and experience of each employee. It is the intent of the General Assembly that a local school administrative unit not fail to employ an employee who was employed for the prior school year in order to implement the provisions of this sub-subdivision. The Department of Public Instruction shall provide technical assistance to local school administrative units regarding the implementation of this sub-subdivision.

The average salary paid to employees in each category from State-allotted funds for the 1993-94 school year shall be at least two

percent (2%) higher than the average salary paid to employees in that category from State-allotted funds for the 1992-93 school year.

The State Board of Education shall report to the General Assembly, prior to March 31, 1994, and March 31, 1995, on the implementation of this sub-subdivision.

c. Salary schedules for other support personnel, including but not limited to maintenance and school food service personnel, shall be adopted by the State Board of Education. The Board shall classify these support positions in terms of uniform pay grades included in the salary schedule of the State Personnel Commission. These schedules shall apply if the local board of education does not adopt a salary schedule of its own for personnel paid from other than State appropriations."

(b) G.S. 115C-238.6(a) reads as rewritten:

"(a) Prior to June 30 each year, the State Superintendent shall review local school improvement plans submitted by the local school administrative units in accordance with policies and performance indicators adopted by the State Board of Education. If the State Superintendent approves the plan for a local school administrative unit, that unit shall participate in the Program for the next fiscal year.

If a local plan contains a request for a waiver of State laws, regulations, or policies, in accordance with G.S. 115C-238.3(b1) or (b2), the State Superintendent shall determine whether and to what extent the identified laws, regulations, or policies should be waived. The State Superintendent shall present that plan and his determination to the State Board of Education. If the State Board of Education deems it necessary to do so to enable a local unit to reach its local accountability goals, the State Board, only upon the recommendation of the State Superintendent, may grant waivers of:

(1) State laws pertaining to class size, teacher certification, assignment of teacher assistants, the use of State-adopted textbooks, and the purposes for which State funds for the public schools, except for funds for school health coordinators, may be used: Provided, however, the State Board of Education shall not permit the use of funds for teachers for expanded programs under the Basic Education Program for any other purpose;

(2) All State regulations and policies, except those pertaining to State salary schedules and employee benefits for school employees, the instructional program that must be offered under the Basic Education Program, the system of employment for public school teachers and administrators set out in G.S. 115C-325, health and safety codes, compulsory school attendance, the minimum lengths of the school day and year, and the Uniform Education Reporting System.

The provisions of G.S. 115C-12(16)b. regarding the placement of State-allotted office support personnel, teacher assistants, and custodial personnel on the salary schedule adopted by the State Board shall not be waived.

Except for waivers requested by the local board in accordance with G.S. 115C-238.3(b2) for central office staff, waivers shall be granted only for the specific schools for which they are requested in building-level plans and shall be used only under the specific circumstances for which they are requested."

EXCEPTIONAL CHILDREN FUNDS

Sec. 134. (a) The funds appropriated for exceptional children in this act shall be allocated as follows:

(1) Each local school administrative unit shall receive for academically gifted children the sum of $641.26 per child for three and nine-tenths percent (3.9%) of the 1992-93 actual average daily membership in the local school administrative unit, regardless of the number of children identified as

academically gifted in the local school administrative unit. The total number of children for which funds shall be allocated pursuant to this subdivision is 43,114 for the 1993-94 school year.

(2) Each local school administrative unit shall receive for exceptional children other than academically gifted children the sum of $1,923.79 per child for the lesser of (i) all children who are identified as exceptional children other than academically gifted children or (ii) twelve and five-tenths percent (12.5)% of the 1992-93 actual average daily membership in the local school administrative unit. The maximum number of children for which funds shall be allocated pursuant to this subdivision is 125,316 for the 1993-94 school year.

(3) Each local school administrative unit in which more than twelve and five-tenths percent (12.5%) of the 1992-93 actual average daily membership are identified as exceptional children other than academically gifted children shall receive $418.76 per child in excess of the twelve and five-tenths percent (12.5%). These funds shall be used only for nonrecurring expenditures and other expenditures for exceptional children other than academically gifted children that do not impose future obligations on the State or local governments.

The dollar amounts allocated under subdivisions (1) and (2) of this subsection for exceptional children shall also increase in accordance with legislative salary increments for personnel who serve exceptional children.

(b) The State Board of Education shall study the methods of identifying exceptional children other than academically gifted children and formulas for allocating funds for exceptional children other than academically gifted children, including pupil formulas that approximate the actual costs of providing services. The formulas may include factors such as the severity of exceptionality, wealth of the local educational agency, and any other factor the State Board of Education considers appropriate. The State Board of Education shall ensure that the formulas do not encourage local educational agencies as defined in G.S. 115C-110 to overidentify exceptional children, to categorize children as more severely impaired than they are, or to serve children in more restrictive settings than are needed. The State Board of Education shall determine the impact on current funding levels by running simulations of any formulas that it considers, and shall recommend a five-year timeline beginning with the 1995-96 fiscal year for implementation of the formulas, which may include the elimination of caps in allocating exceptional children's funds at the end of the five years.

(c) The State Board of Education shall reexamine the State's laws, rules, and policies concerning the education of academically gifted children. As part of this review, the Board shall (i) determine whether there should be State criteria for the identification of these children, (ii) determine whether local school administrative units should be required to count academically gifted children as part of their annual head counts for exceptional children, (iii) identify, and establish performance criteria to measure the success of, appropriate programs or other uses of the funds for academically gifted children under subsection (a) of this section, and (iv) establish criteria to ensure that academically gifted children are generally reflective of the population of children enrolled in the State's public schools.

(d) The State Board of Education shall report its recommendations, including any proposals for modified laws, rules, or policies and findings under subsections (b) and (c) of this section to the Commission on Children with Special Needs and to the chairs of the appropriations committees and the appropriations subcommittees on education of the Senate and the House of Representatives by March 15, 1994.

"§ 115C-102.6. Duties.

The Commission shall prepare a requirements analysis and propose a plan to the Joint Legislative Commission on Governmental Operations and the Joint Legislative Education Oversight Committee for improving student performance in the public schools through the use of learning and instructional management technologies. In developing this plan, the Commission shall:

(1) Assess factors related to the current use of learning and instructional management technologies in the schools, including what is currently being used, how the current use of technology relates to the standard course of study, how the effectiveness of learning and instructional management technologies is being evaluated, how schools are paying for learning and instructional management technologies, and what training school employees have received in the use of learning and instructional management technology and networks.

(2) Identify the instructional goals that can be met through the use of learning and instructional management technologies. The goals may include teaching the standard course of study, reaching students with a broad range of abilities, and ensuring that all students have access to a complete curriculum regardless of the geographical location or the financial resources of the school.

(3) Examine the types of learning and instructional management technologies available to meet the identified instructional goals, including computers, audiovisual aids, science laboratory equipment, vocational education equipment, and distance learning networks. The Commission shall consider the compatibility and accessibility of different types of learning and instructional management technologies, including compatibility with the planned statewide broadband ISDN network, and whether they may be easily communicated from one site to another. The Commission shall also consider linkages between learning and instructional management technologies and existing State and local administrative systems.

(4) Develop a basic level of learning and instructional management technology for every school in the State. The basic level may include:

a. A computer lab with student stations or a specified number of student computer stations in each classroom for the use of instructional software such as computer-assisted instruction, integrated learning systems, instructional management systems, and applications software such as word processing, database, spreadsheet, and desktop publishing.

b. A computer workstation in every classroom for teachers to use in preparation and delivery of instruction and for administrative record keeping.

(h) **Nonsupplant requirement.** — A county in which a local school administrative unit receives funds under this section shall use the funds to supplement and not supplant existing State and local funding for public schools.

The Local Government Commission shall analyze the budgets and the expenditures of school administrative units that receive funds under this section in light of their budgets and expenditures for the previous year and shall determine whether those funds were used to supplement and not supplant State and local funding for public schools. The allocation formula shall:

(1) Round all fractions of positions to the next whole position.

(2) Provide four additional regular classroom teachers in counties in which the average daily membership per square mile is greater than four and six additional regular classroom teachers in counties in which the average daily membership per square mile is four or less.

This formula is solely a basis for distribution of supplemental funding for certain county school administrative units and is not intended to reflect any measure of the adequacy of the educational program or funding for public schools. The formula is also not intended to reflect any commitment by the General Assembly to appropriate any additional supplemental funds for such county administrative units.

(b) **Nonsupplant requirement.** — A county in which a local school administrative unit receives funds under this section shall use the funds to supplement and not supplant existing State and local funding for public schools.

The Local Government Commission shall analyze the budgets and the expenditures of school administrative units that receive funds under this section in light of their budgets and expenditures for the previous year and shall determine whether those funds were used to supplement and not supplant State and local funding for public schools. The Local Government Commission shall report the results of its study to the State Board of Education, the Joint Legislative Oversight Committee, and the Appropriations Committees of the Senate and the House of Representatives, prior to May 1, 1994 and May 1, 1995.

If real property in a county has been revalued one year prior to the most recent sales assessment ratio study, a weighted average of the two most recent sales assessment ratios shall be used. If property has been revalued the year of the most recent sales assessment ratio study, the sales assessment ratio for the year of revaluation shall be used.

Sec. 144.1. The Joint Legislative Commission on Governmental Operations may review the implementation of the recommendations of the Government Performance Audit Committee regarding the reorganization of State education agencies. The Commission may consider the extent to which the recommendations of the Government Performance Audit Committee are being implemented, and what additional actions, if any, should be taken to implement these recommendations.

If the Joint Legislative Commission on Governmental Operations undertakes this review, the Commission shall report the results of the review to the General Assembly.

LOCAL SCHOOL IMPROVEMENT PLANS

Sec. 144.2. (a) G.S. 115C-238.1 reads as rewritten:

"**§ 115C-238.1. Performance-based Accountability Program; development and implementation by State Board.**

The General Assembly believes that all children can learn. It is the intent of the General Assembly that the mission of the public school community is to challenge with high expectations each child to learn, to achieve, and to fulfill his or her potential. With that mission as its guide, the State Board of Education shall develop and implement a Performance-based Accountability Program. The primary goal of the Program shall be to improve student performance. The State Board of Education shall adopt:

(1) Procedures and guidelines through which, beginning with the 1990-91 fiscal year, local school administrative units may participate in the Program;

(2) Guidelines for developing local school improvement plans with three-year student performance goals and annual milestones to measure progress in meeting those goals; ~~and~~

(3) A set of student performance indicators for measuring and assessing student performance in the participating local school administrative units. These indicators ~~may~~ shall include attendance rates, dropout rates, test scores, parent involvement, and post-secondary ~~outcomes.~~ outcomes; and

(4) Guidelines for school performance indicators for measuring and assessing school performance in the participating local school administrative units. These indicators shall concern how to gauge community involvement, parent involvement, professional development of teachers, and the school climate with regard to the safety of students and employees and the use of positive discipline. These indicators shall not rely predominantly on test scores."

(b) G.S. 115C-238.3, as rewritten by Chapter 38 of the 1993 Session Laws and Chapter 263 of the 1993 Session Laws, reads as rewritten:

"**§ 115C-238.3. Development of local plans; elements of local plans.**

(a) Development of systemwide plan by the local board of education. — The board of education of a local school administrative unit that elects to participate in the Program shall develop and submit a local school improvement plan for the entire local school administrative unit to the State Superintendent of Public Instruction before April 15 of the fiscal year preceding the fiscal year in which participation is sought.

A systemwide improvement plan shall remain in effect for no more than three years.

(b) Establishment of student performance goals and a systemwide staff development plan by the local board of education for the systemwide plan. — The local board of education shall establish student performance goals and a systemwide staff development plan for the local school administrative ~~unit.~~ unit for inclusion in the systemwide plan. The local board of education shall actively involve an advisory panel composed of a substantial number of teachers, school administrators, other school staff, and parents of children enrolled in the local school administrative unit, in developing the student performance goals for the local school improvement plan. Parents serving on advisory panels shall not be employees of the school unit and shall reflect the racial and socioeconomic composition of the students enrolled in the local school administrative unit. The advisory panel shall ensure substantial parent participation. It is the intent of the General Assembly that teachers have a major role in developing the student performance goals for the local school improvement plan; therefore, at least half of the staff members participating in this advisory panel shall be teachers. ~~The teachers~~ Every teacher in the local school administrative unit shall ~~select the teachers who are involved in the advisory panel.~~ have an opportunity to elect by secret ballot the teachers who are involved in the advisory panel.

The performance goals for the local school administrative unit shall address specific, measurable goals for all student and school performance indicators adopted by the State Board. Factors that determine gains in achievement vary from school to school; therefore, socioeconomic factors and previous student performance indicators shall be used as the basis of the local school improvement plan.

The systemwide staff development plan shall be consistent with the systemwide goals and shall include a component to accommodate the staff development needs at the building level as expressed in each building's improvement plan. In designing this component of the systemwide staff development plan, direct allocation of a needed portion of the staff development funds to the building level shall be given first priority. Each school building shall have the flexibility to combine its staff development allocation with other schools in the local school administrative unit when the staff development needs of those schools are substantially similar as expressed in their approved building-level plans.

(b1) Development by each school of strategies for attaining local student performance goals. — The principal of each school, representatives of the building-level staff, and parents of children enrolled in the school shall develop a building-level plan to address student performance goals appropriate to that school from those established by the local board of education. Parents serving on building-level committees shall reflect the racial and socioeconomic composition of the students enrolled in that school and shall not be members of the building-level staff. Parental involvement is a critical component of school success and positive student outcomes; therefore, it is the intent of the General Assembly that parents, along with teachers, have a substantial role in developing student performance goals at the building level. To this end, building-level advisory board meetings shall be held at a convenient time to assure substantial parent participation. ~~These~~ The strategies for attaining local school performance goals shall include a plan for the use of staff development funds that may be made available to the school by the local board of education to implement the building-level plan. These strategies may also include requests for waivers of State laws, regulations, or policies for that school. A request for a waiver shall (i) identify the State laws, regulations, or policies that inhibit the local unit's ability to reach its local accountability goals, (ii) set out with specificity the circumstances under which the waiver may be used, and (iii) explain how a waiver of those laws, regulations, or policies will permit the local unit to reach its local goals.

Support among affected staff members is essential to successful implementation of a building-level plan to address student performance goals appropriate to a school; therefore, the principal of the school shall present the proposed building-level plan to all of the staff assigned to the school building for their review and vote. The vote shall be by secret ballot. The principal may submit the building-level plan to the local board of education for inclusion in the systemwide plan only if the proposed building-level plan has the approval of a majority of the staff who voted on the plan.

The local board of education shall accept or reject the building-level plan. The local board shall not make any substantive changes in any building-level plan that it accepts; the local board shall set out any building-level plan that it accepts in the systemwide plan. If the local board rejects a building-level plan, the local board shall state with specificity its reasons for rejecting the plan; the principal of the school for which the plan was rejected, representatives of the building-level staff, and parents of children enrolled in the school may then prepare another plan, present it to the building-level staff for a vote, and submit it to the local board for inclusion in the systemwide plan. If no building-level plan is accepted for a school before March 15 of the fiscal year preceding the fiscal year in which participation is sought, the local board may develop a plan for the school for inclusion in the systemwide plan; the General Assembly urges the local board to utilize the proposed building-level plan to the maximum extent possible when developing such a plan.

(b2) Waivers concerning central office ~~staff~~ staff. — A local board of education may request waivers of State laws, regulations, or policies which are included in the building plans described in subsection (b1) of this section, and it may also request waivers which affect the organization, duties, and assignment of central office staff only. Provided, none of the duties to be performed pursuant to G.S. 115C-436 may be waived. A request for a waiver shall (i) identify the State laws, regulations, or policies that inhibit the local unit's ability to reach its local accountability goals, (ii) set out with specificity the circumstances under which the waiver may be used, and (iii) explain how a waiver of those laws, regulations, or policies will permit the local unit to reach its local goals.

(c) Development by each school of a differentiated pay plan for that school; development by the local board of education of a differentiated pay plan for central office personnel. —

(1) The local school administrative unit shall consider a plan for differentiated pay. The local plan shall include a plan for differentiated pay, in accordance with G.S. 115C-238.4, unless the local school administrative unit elects not to participate in any differentiated pay plan.

(2) The principal of each school, representatives of the building-level staff, and parents of children enrolled in the school shall develop a building-level differentiated pay plan for the school when they develop their building-level plan to address student performance goals appropriate to the school. By October 1 of each year, the principal shall disclose to all affected personnel the total allocation of funds for differentiated pay. At the end of the fiscal year, the principal shall make available to all affected personnel a report of all disbursement from the building-level differentiated pay plan.

Support among affected staff members is essential to successful implementation of a building-level differentiated pay plan; therefore, the principal of the school shall present the proposed building-level plan to all of the staff assigned to the school building for their review and vote. The vote shall be by secret ballot. The principal may submit the building-level differentiated pay plan to the local board of education only if the proposed building-level differentiated pay plan has the approval of a majority of the staff who voted on the plan.

The local board of education shall accept or reject the building-level differentiated pay plan. The local board shall not make any substantive changes in any building-level plan that it accepts; the local board shall set out any building-level plan that it accepts in the systemwide differentiated pay plan. If the local board rejects a building-level plan, the local board shall state with specificity its reasons for rejecting the plan; the principal of the school for which the plan was rejected, representatives of the building-level staff, and parents of children enrolled in the school may then prepare another plan, present it to all of the staff eligible to receive differentiated pay, in accordance with G.S. 115C-238.4(a), for a vote, and submit it to

the local board for inclusion in the systemwide plan. If no building-level plan is accepted for a school before March 15 of the fiscal year preceding the fiscal year in which participation is sought, the local board may develop a plan for the school building for inclusion in the systemwide plan; the General Assembly urges the local board to utilize the proposed building-level plan to the maximum extent possible when developing such a plan.

(3) The local board of education shall develop a plan for differentiated pay for all classes of personnel assigned to the central office that the local board determines are participants in the development or implementation of the local school improvement plan, and shall include the plan in the systemwide differentiated pay plan.

(4) A systemwide differentiated pay plan shall remain in effect for no more than three years. At the end of three years, a plan to continue, discontinue, or modify that differentiated pay plan shall be developed in accordance with subdivisions (2) and (3) of this subsection.

(d) Repealed by Session Laws 1991 (Regular Session, 1992), c. 900, s. 75.1(b), effective July 8, 1992."

(c) Part 4 of Article 16 of Chapter 115C of the General Statutes is amended by adding a new section to read:

"§ 115C-238.6A. Distribution of staff development funds.

Any funds the local board of education makes available to an individual school building to implement the local school improvement plan shall be used in accordance with the building-level plan set out in the systemwide plan.

By October 1 of each year, the principal shall disclose to all affected personnel the total allocation of all funds available to the school for staff development and the superintendent shall disclose to all affected personnel the total allocation of all funds available at the system level for staff development. At the end of the fiscal year, the principal shall make available to all affected personnel a report of all disbursements from the building-level staff development funds, and the superintendent shall make available to all affected personnel a report of all disbursements at the system level of staff development funds."

(d) G.S. 115C-238.7(a) reads as rewritten:

"(a) There is created the Task Force on Site-Based Management within the Department of Public Instruction.

The Task Force shall be composed of ~~15~~ 21 members appointed as follows:

(1) The efficiency of the program and the impact on the efficiency of the program of the 1991 statutory changes allowing local boards of education to contract with public or private entities to provide driver education;

(2) The impact on parents and students, especially in rural areas, of the State Board of Education rule requiring that driver education be offered outside of the regular instructional day; and

(3) The overall cost of the program and the projected five-year cost of the program.

The Commission shall report the results of its study by April 15, 1994.

RENAME NORTH CAROLINA ELDERLY AND HANDICAPPED TRANSPORTATION ASSISTANCE PROGRAM

Sec. 147. G.S. 136-44.27 reads as rewritten:

"**§ 136-44.27. North Carolina Elderly and ~~Handicapped~~ Disabled Transportation Assistance Program.**

(a) There is established the Elderly and ~~Handicapped~~ Disabled Transportation Assistance Program that shall provide State financed elderly and ~~handicapped~~ disabled transportation services for counties within the State. The Department of Transportation is designated as the agency of the State responsible for administering State funds appropriated to purchase elderly and ~~handicapped~~ disabled transportation services for counties within the State. The Department shall develop appropriate procedures regarding the distribution and use of these funds and shall adopt rules to implement these procedures. No funds appropriated pursuant to this act may be used to cover State administration costs.

(b) For the purposes of this section, an elderly person is defined as one who has reached the age of 60 or more years, and a ~~handicapped~~ disabled person is defined as one who has a physical or mental impairment that substantially limits one or more major life activities, an individual who has a record of such impairment, or an individual who is regarded as having such an impairment. Certification of eligibility shall be the responsibility of the county.

(c) All funds distributed by the Department under this section are intended to purchase additional transportation services, not to replace funds now being used by local governments for that purpose. These funds are not to be used towards the purchase of transportation vehicles or equipment. To this end, only those counties maintaining elderly and ~~handicapped~~ disabled transportation services at a level consistent with those in place on January 1, 1987, shall be eligible for additional transportation assistance funds.

(d) The Public Transportation Division of the Department of Transportation shall distribute these funds to the counties according to the following formula: fifty percent (50%) divided equally among all counties; twenty-two and one-half percent (22 1/2%) based upon the number of elderly residents per county as a percentage of the State's elderly population; twenty-two and one-half percent (22 1/2%) based upon the number of ~~handicapped~~ disabled residents per county as a percentage of the State's ~~handicapped disabled~~ population; and, the remaining five percent (5%) based upon a population density factor that recognizes the higher transportation costs in sparsely populated counties.

(e) Funds distributed by the Department under this section shall be used by counties in a manner consistent with transportation development plans which have been approved by the Department and the Board of County Commissioners. To receive funds apportioned for a given fiscal year, a county shall have an approved transportation development plan. Funds that are not obligated in a given fiscal year due to the lack of such a plan will be distributed to the eligible counties based upon the distribution formula prescribed by subsection (d) of this section."

SMALL URBAN CONSTRUCTION PROGRAM FUNDS

Sec. 148. Of the funds appropriated in this act to the Department of Transportation, the sum of twenty million dollars ($20,000,000) shall be allocated in each fiscal year of the biennium for small urban construction projects. Fourteen million dollars ($14,000,000) of these funds shall be allocated equally in each fiscal year of the biennium among the 14 Highway Divisions for the Small Urban Construction Program for small urban construction projects that are located within the area covered by a one-mile radius of the municipal corporate limits. The remaining six million dollars ($6,000,000) shall be used statewide for rural or small urban highway improvements as approved by the Secretary of the Department of Transportation.

None of these funds used for rural secondary road construction are subject to the county allocation formula as provided in G.S. 136-44.5.

The Department of Transportation shall report to the members of the General Assembly on projects funded pursuant to this section in each member's district prior to the Board of Transportation's action. The Department shall make a quarterly comprehensive report on the use of these funds to the Joint Legislative Highway Oversight Committee and the Fiscal Research Division.

IMPLEMENTING SELECTED GPAC RECOMMENDATIONS

Sec. 149. (a) The Department of Transportation shall centralize the monitoring and reporting of data related to small and minority business development firms and civil rights-related matters, and reorganize the Department so that functions related to these activities will be integrated into and institutionalized under the Division of Highways. The Department will comply with this section by July 1, 1993. The Department shall report to the Joint Legislative Highway Oversight Committee by October 1, 1993, on the reorganization of civil rights-related functions within the Department.

(b) The Secretary of the Department of Transportation shall submit to the General Assembly and the Joint Legislative Highway Oversight Committee, on or before September 1, 1993, a plan to consolidate part-time driver licensing offices across the State to increase productivity. The plan shall consider the number of applications

processed per day by examiners, the number of full-time and part-time offices located in each county, the proximity of offices in each county to one another, population served, costs to support part-time offices, and any other criteria the Secretary deems warranted. The plan shall also document cost savings by office and the estimated increase in productivity due to consolidations. The Secretary of the Department of Transportation shall further notify the Joint Legislative Highway Oversight Committee on or before April 1, 1994, of the amount of funds by which the Division of Motor Vehicles' 1994-95 appropriation can be reduced due to consolidation of driver licensing offices.

(c) The Secretary of the Department of Transportation shall submit a plan to the Joint Legislative Highway Oversight Committee not later than November 1, 1993, outlining steps the Department plans to take to enhance efficiency of the Vehicle Registration Process.

(d)(1) The General Assembly finds that the Department of Transportation is currently seeking funding for 298 more staff positions in its preconstruction units during the next 15 years to handle the work load from the Highway Trust Fund. The majority of these positions are to be filled during the next four years in the Highway Design and Planning Branch and the Environmental Branches.

The use of private engineering firms to handle peak work load requirements is a well-founded strategy for avoiding the public-sector problems of staffing up and down for varying work loads.

The Department of Transportation is currently contracting out twenty percent (20%) to twenty-five percent (25%) of preconstruction work to private engineering firms. If outside contract forces were used to address the preconstruction work load associated with the additional 298 positions, then the level of preconstruction work contracted out would rise to about thirty-two percent (32%) to thirty-six percent (36%).

This increase in contracting out work load, from twenty percent (20%) to twenty-five percent (25%), to thirty-two percent (32%) to thirty-six percent (36%) would be a reasonable level of increase because the Highway Trust Fund represents a seventy-eight percent (78%) increase in the pre-1989 preconstruction work load of the Department.

(2) The Secretary of Transportation shall submit a plan to the Joint Legislative Highway Oversight Committee, by September 1, 1993, to implement the recommendation in subdivision (1) of this subsection to freeze preconstruction positions and contract out the balance of its preconstruction work to private engineering firms.

(e)(1) The General Assembly finds that the Department of Transportation's ongoing strategy to increasingly rely on the use of private engineering firms to perform surveys, process control, and construction engineering and inspection functions should be continued.

With the Highway Trust Fund program entering a phase of expanded construction activity, having completed a number of project plans, the Department will need to further leverage its in-house construction staff to meet the requirements of the program.

(2) The increased use of outside contract forces to perform quality control and quality assurance functions will require continued Department of Transportation construction staff involvement in project oversight and verification, careful selection of vendors, and rigorous contract administration of these projects. The level of this outside contracting should be based on the following considerations:

a. Focus outside contract activity on the peak load requirements of the Highway Trust Fund construction program;

b. Retain sufficient in-house capability to address the base load requirements of the Highway Trust Fund construction program and

properly administer the outside construction engineering and inspection-related contracts; and

c. Select contractors with significant experience in performing construction engineering and inspection for major road and bridge projects and familiarity with Department of Transportation engineering standards and construction specifications.

(3) By using private engineering firms to handle more of the Highway Trust Fund program construction work load, the Department of Transportation can reduce the number of new in-house staff required to support the construction portion of the program.

(4) The Secretary of Transportation shall report to the Joint Legislative Highway Oversight Committee, no later than September 1, 1993, a plan meeting the construction needs of the Highway Trust Fund program with a minimum of new construction staff in the Department of Transportation and increasing the use of outside contract forces while meeting the criteria in subdivisions (1) through (3) of this subsection.

(f)(1) The General Assembly finds that the Equipment Sections of the 14 highway divisions perform maintenance and repair functions for all Department of Transportation equipment, except for sedans which are maintained through the Department of Administration. Each division has between five and 10 garages, including one major division garage. In some cases, two-person garages continue to operate in certain rural areas of the State, where the distance between garages is fairly large (40 to 50 miles). In addition, there are local county garages colocated near the division garages. These latter garages represent a potential opportunity for consolidation, to reduce the overall number of garage facilities maintained by the Department of Transportation.

(2) The Department of Transportation shall develop a plan to consolidate the equipment section resources associated with the 14 division garages and those 14 Department county garages located nearby for submission to the Joint Legislative Highway Oversight Committee by February 1, 1994.

(g)(1) The General Assembly finds that Division Traffic Services units are variously organized, with some units having all field forces reporting to the Division Traffic Services Supervisor and others having signal-related forces assigned to the Assistant Division Traffic Engineer in a Traffic Control Technical Services unit. The latter arrangement provides a better balance of technical and nontechnical traffic services personnel among the middle management positions within this unit, resulting in a more equitable span of control among these supervisory personnel. This alignment recognizes the increasingly technical aspects of traffic signal planning and implementation, while also providing for a more balanced distribution of Traffic Services staff among the Traffic Services supervisors.

(2) The Secretary of Transportation shall realign the Traffic Services sections of the 14 Traffic Divisions so that the signal/traffic control personnel report to the Assistant Traffic Engineer and pavement markings/signs personnel report to the Traffic Services Supervisor.

(h)(1) The General Assembly finds that the overall level of staffing for the Department of Transportation should be based on:

a. The determination of resources needed to provide an acceptable level of service, accomplish the annual maintenance program efficiently, and erase the existing maintenance backlog; and

b. The determination of the most appropriate mix of contract and in-house resources.

As the maintenance work load has increased, the Department of Transportation has been able to handle a portion of the increased work

through contracting. The Department of Transportation can make additional use of private contractors

(2) The Department of Transportation shall report to the Joint Legislative Highway Oversight Committee, on or before November 1, 1993, a plan on maintenance staffing and on ways to increase efficiency within the maintenance work force. The plan may include:

a. The continued contracting out of construction activities, as well as those maintenance functions, such as mowing, roadside rest area maintenance, building maintenance, signal installation, and signal maintenance, that it currently contracts;

b. The contracting out of all of the Secondary Road Construction program and free up the in-house maintenance staff now performing this function to concentrate on backlogged and expanding maintenance needs; and

c. Expanding the Department's efforts to contract out maintenance functions, by increasing the proportion of contracted work in such areas as: ditch cleaning, landscaping, and bituminous surface treatment resurfacing.

(2) Whether the use of inmate labor is cost-effective.
(3) Whether the cost-sharing arrangement with the Department of Correction is equitable with respect to the contributions from the Department of Transportation and the Highway Fund.

PART 23. DEPARTMENT OF HUMAN RESOURCES

Requested by: Senator Richardson, Representatives Easterling, Nye
WILLIE M.

Sec. 208. (a) Legislative Findings. — The General Assembly finds:

(1) That there is a need in North Carolina to provide appropriate treatment and education programs to children under the age of 18 who suffer from emotional, mental, or neurological handicaps accompanied by violent or assaultive behavior;
(2) That children meeting these criteria have been identified as a class in the case of Willie M., et al. v. Hunt, et al., formerly Willie M., et al. v. Martin, et al.; and

(3) That these children have a need for a variety of services, in addition to those normally provided, that may include, but are not limited to, residential treatment services, educational services, and independent living arrangements.

(b) Funds appropriated by the General Assembly to the Department of Human Resources for serving members of the Willie M. Class shall be expended only for programs serving members of the Willie M. Class identified in Willie M., et al. v. Hunt, et al., formerly Willie M., et al. v. Martin, et al., including evaluations of potential class members. The Department shall reallocate these funds among services to Willie M. Class members during the year as it deems advisable in order to use the funds efficiently in providing appropriate services to Willie M. Class children.

(c) Funds for Department of Public Education. — Funds appropriated to the Department of Public Education in this act for members of the Willie M. Class are to establish a supplemental reserve fund to serve only members of the class identified in Willie M., et al. v. Hunt, et al., formerly Willie M., et al. v. Martin, et al. These funds shall be allocated by the State Board of Education to the local education agencies to serve those class members who were not included in the regular average daily membership and the census of children with special needs, and to provide the additional program costs which exceed the per pupil allocation from the State Public School Fund and other State and federal funds for children with special needs.

(d) The Department of Human Resources shall continue to implement its prospective unit cost reimbursement system and shall ensure that unit cost rates reflect reasonable costs by conducting cost center service type rate comparisons and cost center line item budget reviews as may be necessary, and based upon these reviews and comparisons, the Department shall reduce and/or cap rates to programs which are significantly higher than those rates paid to other programs for the same service.

Any exception to this requirement shall be approved by the Director of the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services, and shall be reported in the Department's annual joint report to the Governor and the General Assembly and in any periodic report the Department may make to the Joint Legislative Commission on Governmental Operations.

(d1) The Department of Human Resources shall implement a process to review those cases for whom treatment has been recommended whose annual cost is anticipated to be in excess of one hundred fifty percent (150%) of the average annual per client expenditure of the previous fiscal year and shall take actions to reduce these treatment costs where appropriate.

(e) Reporting Requirements. — The Department of Human Resources and the Department of Public Education shall submit, by May 1 of each fiscal year, a joint report to the Governor and the General Assembly on the progress achieved in serving members of the Willie M. Class. The report shall include the following unduplicated data for each county: (i) the number of children nominated for the Willie M. Class; (ii) the number of children actually identified as members of the Class in each county; (iii) the number of children served as members of the Class in each county; (iv) the number of children who remain unserved or for whom additional services are needed in order to be determined to be appropriately served; (v) the types and locations of treatment and education services provided to Class members; (vi) the cost of services, by type, to members of the Class and the maximum and minimum rates paid to providers for each service; (vii) the number of cases whose treatment costs were in excess of one hundred fifty percent (150%) of the average annual per client expenditure; (viii) information on the impact of treatment and education services on members of the Class; (ix) an explanation of, and justification for, any waiver of departmental rules that affect the Willie M. program; and (x) the total State funds expended, by program, on Willie M. Class members, other than those funds specifically appropriated for the Willie M. programs and services.

(e1) From existing funds available to it, the Department of Human Resources shall begin a process to document and assess individual class members' progress through the continuum of services. Standardized measures of functioning shall be administered periodically to each member of the Class, and the information generated from these measures shall be used to assess client progress and program effectiveness.

(f) The Departments of Human Resources and Public Education shall provide periodic reports of expenditures and program effectiveness on behalf of the Willie M. Class and to the Fiscal Research Division. As part of these reports, the Departments shall explain measures they have taken to control and reduce program expenditures.

(g) In fulfilling the responsibilities vested in it by the Constitution of North Carolina, the General Assembly finds:

(1) That the General Assembly has evaluated the known needs of the State and has endeavored to satisfy those needs in comparison to their social and economic priorities; and

(2) That the funds appropriated will enable the development and implementation of placement and services for the Class members in Willie M., et al. v. Hunt, et al., formerly Willie M., et al. v. Martin, et al., within a reasonable period of time considered within the context of the needs of the class members, the other needs of the State and the resources available to the State.

(h) The General Assembly supports the efforts of the responsible officials and agencies of the State to meet the requirements of the court order in Willie M., et al. v. Hunt, et al., formerly Willie M., et al. v. Martin, et al. To ensure that Willie M. Class members are appropriately served, no State funds shall be expended on placement and services for Willie M. Class members except:

(1) Funds specifically appropriated by the General Assembly for the placement and services of Willie M. Class members; and

(2) Funds for placement and services for which Willie M. Class members are otherwise eligible.

This limitation shall not preclude the use of unexpended Willie M. funds from prior fiscal years to cover current or future needs of the Willie M. program subject to approval by the Director of the Budget. These Willie M. expenditures shall not be subject to the requirements of G.S. 143-18.

(i) Notwithstanding any other provision of law, if the Department of Human Resources determines that a local program is not providing appropriate services to members of the Class identified in Willie M., et al. v. Hunt, et al., formerly Willie M., et al. v. Martin, et al., the Department may ensure the provision of these services through contracts with public or private agencies or by direct operation by the Department of such programs.

(1) 'Contract' means a contract with an area authority to provide services, other than personal services, to clients and other recipients of services.

(2) A contractor or a former contractor who claims that a requirement of the contract substantially compromises the ability of the contractor to fulfill the contract;

(3) A contractor or former contractor who claims that an area authority has acted arbitrarily and capriciously in reducing funding for the type of services provided or formerly provided by the contractor or former contractor;

(4) A client or a person who was a client in the previous fiscal year, who claims that an area authority has acted arbitrarily and capriciously in reducing funding for the type of services provided or formerly provided to the client directly by the area authority; and

All funds distributed by the Department, under this section, to counties are intended to purchase additional transportation services and not to supplant funds now being used by local governments for that purpose. These funds shall not be used towards the purchase of transportation vehicles or equipment, and shall not be used to cover State administrative costs. The Department of Transportation shall develop appropriate procedures for the distribution and use of these funds and shall adopt rules to implement these procedures.

FAMILY SUPPORT ACT

Sec. 228. (a) The General Assembly finds that it is in the best interest of the State and of all its citizens to encourage recipients of Aid to Families with Dependent Children to obtain jobs and become self-sufficient. It further finds that, by continuing medical assistance and providing limited wage assistance to those recipients who are working, the State will make it possible to help many recipients to be able to keep their jobs, support their families, and become self-sufficient.

(b) The Social Services Commission shall adopt rules to change the way it budgets Aid to Families with Dependent Children payments that will result in more recipients being able to find work and keep working. These rules shall include subtracting countable income from the State standard of need, and paying a percentage of the difference. The percentage that shall be applied to determine the amount of assistance shall be the same percentage set in the Current Operations Appropriations Act that determines the Aid to Families of Dependent Children payment level from the standard of need.

"Part 6. Adolescent Pregnancy Prevention Projects.

"**§ 130A-131.15. Department to establish program.**

(a) The Department shall establish and administer a program to distribute funds appropriated for adolescent pregnancy prevention projects.

(b) The Commission shall adopt rules necessary to implement the program.

(c) The Department shall evaluate all of the adolescent pregnancy projects funded as a result of this program at least yearly and shall report its findings to the Commission for Health Services, the Joint Legislative Commission on Governmental Operations, and the Chairmen of the House Appropriations Subcommittee on Natural and Economic Resources, and the Senate Appropriations Committee on Natural and Economic Resources by April 1 of each year. The evaluation shall be conducted by a firm or individual external to the Department. Any evaluation of these projects shall include a study of the effectiveness of the project in reducing the pregnancy rate within the target population.

(d) The Commission shall be responsible for monitoring the Department's administration of the Adolescent Pregnancy Prevention Program. The Department shall manage and fund the Adolescent Pregnancy Prevention Program projects as follows:

(1) Applications. Any local agency or organization or combination of agencies and organizations may apply to the Department for an allocation of money to operate a project aimed at preventing adolescent pregnancy. The application shall contain an analysis of the adolescent pregnancy and related problems in the locality the project would serve, and a description of how the project would attempt, over a period of at least five years, to prevent the problems. The application shall state how much money is needed to operate the project and how the money shall be spent. The Department shall conduct annually a proposal-writing session that shall be attended by a representative of any project that wishes to apply for funding; that session shall define the criteria for accountability and evaluation that the Department requires of projects. That session shall also provide information about additional funding sources to which projects might turn to satisfy the matching requirements of subdivision (5) of this subsection.

(2) Proposal Requirements. The Department shall apply the following minimum standards to projects applying for first-year funding:

a. Each project shall have a plan of action that extends for at least five years for prevention of adolescent pregnancy.

b. Each project shall have realistic, specific, and measurable goals and objectives for the prevention of adolescent pregnancy.

c. Each project, before submitting its proposal, shall send a representative to the proposal-writing session held by the Department.

(3) Operating Standards. The Department shall apply the following minimum operating standards:

a. Each project shall have a Board of Advisors composed of members from outside the sponsoring agency of the project. The Board of Advisors shall include representatives from at least four of the following: media, government, charitable organizations, private business, and medical institutions. The Boards of Advisors shall meet at least quarterly and advise project staff on project policies and operations.

b. Each project shall comply with reporting, contracting, and evaluation requirements of the Department.

c. Each project shall define and maintain cooperative ties with other community institutions.

d. Each project shall demonstrate its ability to attract financial support from sources other than the State, including sources in the local community.

(4) Criteria for Project Selection. For first-year funding, the Department shall choose from among the applicants that meet the minimum standards in subdivision (2) of this subsection the best selection of projects according to the following criteria:

a. Adequacy of proposed staff to meet project objectives;

b. Appropriateness of project strategies to reduce adolescent pregnancy;

c. Level of community support, including endorsement from the appropriate local government entity and documentation from the appropriate local government entity and from community organizations that opportunity has been given for citizen input into the proposed program, and that there is community support for the proposal. Documentation may include letters or statements of support from citizens or community organizations, or statements that community support was expressed at public hearings. A public hearing is not required by this paragraph;

d. Degree of need of the locality, including that the county has a significant adolescent pregnancy problem as evidenced by its attributable risk score developed by the State Center for Health and Environmental Statistics; and

e. Other appropriate criteria.

The Department shall make its recommendations for funding to the Commission. The Commission shall make the final determination of which projects are to be funded. The Commission shall consider the recommendations of the Department but shall not be bound by them. The Commission shall notify the projects that are to be funded by June 1 of each year.

(5) Schedule of Funding. If the Commission, upon consultation with the Department, finds that a project it has chosen for first-year funding continues to meet the operating standards of subdivisions (2) and (3) of this subsection, funding for that project shall continue, to the extent of available money, for an additional four years. The level of funding provided by the Department to approved projects shall be set according to the following schedule:

a. First year, eighty percent (80%) of the project's annual budget not to exceed the maximum award established by the Commission for Health Services;

b. Second year, ninety percent (90%) of the State appropriations or federal block grant funds awarded in the first year;

c. Third year, seventy-five percent (75%) of the State appropriations or federal block grant funds awarded in the first year;

d. Fourth year, sixty-five percent (65%) of the State appropriations or federal block grant funds awarded in the first year; and

e. Fifth year, fifty percent (50%) of the State appropriations or federal block grant funds awarded in the first year.

The portion of a project's budget that must come from sources other than State or federal block grant funds may be provided as in-kind contributions as well as cash.

(6) Five-Year Limit on Funding. No project shall receive State funding if it has previously received State funding for five full years. Any project that has received State funding before July 1, 1990, will be eligible for consideration for an additional five years' State support, according to the schedule. The Commission may fund any such project that meets the minimum standards if it determines, after considering the experience and impact of the project and measuring its application against those of other applicants, that it should be funded.

(7) Maximum Level of Funding. The Commission for Health Services shall by rule determine the maximum annual amount that may be made to any one project.

(8) As adolescent pregnancy prevention project grant funds decrease, a project shall maintain its original budget level, less the amount expended for start-up costs. The Department shall develop guidelines for determining start-up costs, which guidelines shall be uniform for all projects. Local match percentage may come from any in-kind source or newly generated funds, public or private, available to the project."

The purpose of the system is to assess the records of selected cases in which children are being served by child protective services and the records of all deaths of children in North Carolina from birth to age 18 in order to (i) develop a community-wide approach to the problem of child abuse and neglect, (ii) understand the causes of childhood deaths, (iii) identify any gaps or deficiencies that may exist in the delivery of services to children and their families by public agencies that are designed to prevent future child abuse, neglect, or deaths, and (iv) make and implement recommendations for changes to laws, rules, and policies that will support the safe and healthy development of our children and prevent future child abuse, neglect, and deaths.

"§ 143-572. Definitions.

(1) Local ~~team. — A local multidisciplinary child abuse and neglect review team established for a county.~~ Team. — A Community Child Protection Team or a Child Fatality Prevention Team.

(c) Part 2 of Article 10 of Chapter 143B of the General Statutes is amended by adding a new section to read:

"§ 143B-434.1. Comprehensive Strategic Economic Development Plan.

(a) Definitions. — The following definitions apply in this section:

(1) Board. — The Economic Development Board.
(2) Department. — The Department of Commerce.
(3) Economic distress. — The presence of at least one trend indicator or at least one status indicator:

a. Trend indicators:

(4) Plan. — The Comprehensive Strategic Economic Development Plan.

(5) Region. — One of the major geographic regions of the State defined in the Plan as an economic region based on compatible economic development factors.

(b) Board to Prepare Plan. — The Board shall prepare the Plan by April 1, 1994. The Board shall review and update this Plan by April 1 of each year. The original Plan shall cover a period of four years and each annual update shall extend the time frame by one year so that a four-year plan is always in effect. The Board shall provide copies of the Plan and each annual update to the Governor and the Joint Legislative Commission on Governmental Operations. The Plan shall encompass all of the components set out in this section.

(c) Purpose. — The purpose of this section is to require the Board to apply strategic planning principles to its economic development efforts. This requirement is expected to result in:

(1) The selection of a set of priority development objectives that recognizes the increasingly competitive economic environment and addresses the changing needs of the State in a more comprehensive manner.

(2) The effective utilization of available and limited resources.

(3) A commitment to achieve priority objectives and to sustain the process.

(d) Public and Private Input. — At each stage as it develops and updates the Plan, the Board shall solicit input from all parties involved in economic development in North Carolina, including:

(1) Each of the programs and organizations that, for State budget purposes, identifies economic development as one of its global goals.

(2) Local economic development departments and regional economic development organizations.

(3) The Board of Governors of The University of North Carolina.

The Board shall also hold hearings in each of the Regions to solicit public input on economic development before the initial Plan is completed. The purposes of the public hearings are to:

(1) Assess the strengths and weaknesses of recent regional economic performance.

(2) Examine the status and competitive position of the regional resource base.

(3) Identify and seek input on issues that are key to improving the economic well-being of the Region.

The Board shall hold additional hearings from time to time to solicit public input regarding economic development activities.

Each component of the Plan shall be based on this broad input and, to the extent possible, upon a consensus among all affected parties. The Board shall coordinate its planning process with any State capital development planning efforts affecting State infrastructure such as roads and water and sewer facilities.

(e) Environmental Scan. — The first step in developing the Plan shall be to develop an environmental scan based on the input from economic development parties and the public and on information about the economic environment in North Carolina. To prepare the scan, the Board shall gather the following information. Thereafter, the information shall be updated periodically.

(1) Compilation of the latest economic and demographic data on North Carolina by State, Region, and county including population, population projections, employment, and employment projections, income and earnings status and outlook, migration and commuting patterns, unemployment, poverty, and other similar data.

(2) Compilation of the latest data on the strength of the business environment by State, Region, and county with emphasis on the dynamics of job creation: start-ups, expansions, locations, contractions, and failures. Special assessments are to be made of rural, small, and minority business components of overall activity.

(3) Compilation of the latest data on labor compensation, construction costs, utility rates, payroll costs, taxes, and other cost data normally considered by manufacturing firms and new businesses and shall be tabulated by State, Region, and county.

(4) Compilation of data on assets within the State and by Region and county to include the following:

a. Available buildings, bona fide industrial parks, and sites.

b. Characteristics of the available labor force (number, demographic attributes, skill levels, etc.).

c. Special labor situations, such as military base discharges and large plant closings.

d. Available infrastructure capacities by county and Region including water, sewer, electrical, natural gas, telecommunication, highway access, and other pertinent services.

e. The fiscal capacity of counties and localities within counties to support the infrastructure development necessary to participate in the development process.

f. Analyses of assimilative capacity of riverine, estuarine, or ocean outfalls, or other environmental cost considerations.

g. Proximity analyses of counties in close alignment with major urban areas in bordering states.

h. Special educational and research capabilities.

i. Special transportation situations such as major airports, ports, and railyards.

j. Available data on the performance, contribution, and impact each economic sector (including, but not limited to, agriculture, finance, manufacturing, public utilities, trade, services, tourism, and government) is having on individual counties, Regions, and the State.

k. Available tourist and service assets.

l. Analyses of seasonal population and absentee ownership in resort and tourism areas and their impact on the delivery of public services.

m. Cost and availability of natural gas and electricity.

(5) Compilation and analyses of data on economic and industrial changes in competitor states by Region, as applicable. This data shall be entered into a database and kept current. It shall include, specifically, all new plant

location information such as origin of the plant, Standard Industrial Classification Code, employment, and investment.

(6) Compilation of cost data, policies, and strategies in competitive Southeastern states as well as other United States regions and foreign countries.

(7) Compilation of incentives and special programs being offered by other states.

(8) Compilation and analyses of other data relating to economic development such as regulatory or legal matters, structural problems, and social considerations, e.g. unemployment, underemployment, poverty, support services, equity concerns, etc.

(9) The cost of doing business in North Carolina and other competing states, as it may affect decisions by firms to locate in this State.

(10) Competitive assets within the State and by Region and county, including infrastructure, tourist assets, natural resources, labor, educational and research resources, and transportation.

(11) Other information relating to economic development such as regulatory or legal matters and social considerations.

(f) Needs Assessment. — The Board, using data from the public input sessions and the environmental scan, shall prepare an assessment of economic development strengths, weaknesses, threats, and opportunities within the State by Region and by county. An assessment shall also be conducted of each county to determine distressed areas existing within the county. The assessment will include the identification of key development issues within each geographic area and options available to address each issue.

(g) Vision and Mission Statements. — The Board shall develop a vision statement for economic development that would describe the preferred future for North Carolina and what North Carolina would be like if all economic development efforts were successful. The Board shall then develop a mission statement that outlines the basic purpose of each of North Carolina's economic development programs. Because special purpose nonprofit organizations are uniquely situated to conduct the entrepreneurial and high-risk activity of investing in and supporting new business creation in the State, they should be assigned a dominant role in this key component of economic development activity.

(h) Goals and Objectives. — The Board using data from the public input and the environmental scan, shall formulate a list of goals and objectives. Goals shall be long-range, four years or more, and shall address both needs of economically distressed Regions and counties as well as opportunities for Regions and counties not distressed. The goals shall be developed with realism but should also be selected so as to encourage every Region and county within the State to develop to its maximum potential. Objectives shall be one year or less in scope and shall, if achieved, lead to the realization of the goals formulated by the Board as provided in this section.

Both goals and objectives should be stated largely in economic terms, that is, they should be related to specific population, employment, demographic targets, or economic sector targets. Both efficiency and equity considerations are to be addressed and balanced with special emphasis placed on the needs of disadvantaged or economically distressed populations and communities. The goals and objectives should not state how the economic targets are to be reached, but rather what the economic conditions will be if they are obtained. So that the progress of North Carolina's economic development efforts can be monitored, the Board shall set objectives for each goal that allow measurement of progress toward the goal. Objectives should be quantifiable and time-specific in order to serve as performance indicators.

(i) Formulation of Economic Development Strategy. — The Plan shall have as its action component a strategy set forth in a blueprint for directing resources of time and dollars toward the satisfaction of the goals and objectives stated in subsection (h) of this section. As a practical consequence of the economic environment, a focus on the competitiveness of indigenous industries and entrepreneurial development is required.

The Plan shall include a strategy for the coordination of initiatives and activities for workforce preparedness, funded by federal or State sources, including, but not limited to, vocational education, applied technology education, remedial education, and job training, and the achievement of the economic development goals of the Plan. A balance of opportunity between rural and urban regions and between majority and minority populations should be an overriding consideration. Equity of opportunity for counties and communities across the State will involve the explicit consideration of local fiscal capacity and the fiscal ability to support development activities.

The concept of differentiation should be employed. The Plan should recognize the various strengths and weaknesses of the State and its component regions, subregions, and, in some cases, individual counties. The concept of market segmentation should be employed. Different Regions and subregions of the State should be promoted to different markets.

(j) Implementation Plan. — Based upon all of the foregoing steps, the Board shall establish an implementation plan assigning to the appropriate parties specific responsibilities for meeting measurable objectives. The implementation plan shall contain all necessary elements so that it may be used as a means to monitor performance, guide appropriations, and evaluate the outcomes of the parties involved in economic development in the State.

(k) Annual Report. — The Plan shall contain a section devoted to measuring results, to be called 'An Annual Report on Economic Development for the State of North Carolina'. The Annual Report shall contain a comparison of actual results with stated goals and objectives and significant and meaningful statistics to allow policymakers to adjust strategy and tactics as necessary to achieve the formulated goals.

The Annual Report shall break down data by Regions and counties including:

(1) The net job change (expansions minus contractions) by the various economic sectors of the county, Region, and State.

(2) Realized capital investment in plants and equipment by new and expanding industry in each county, Region, and State.

(3) Manufacturing changes by county, Region, and State that affect the value of firms, total payrolls, average wages, value of shipments, contributions to gross State product, and value added.

(4) The net change in the number of firms by county, Region, and State with statistics on the dynamics of change: relocations in versus relocations out; births versus deaths; and expansions versus contractions.

(5) A measure of the status and performance of all sectors of the county, Region, and State economy including, but not limited to, manufacturing, agriculture, trade, finance, communications, transportation, utilities, services, and travel and tourism.

(6) An assessment of the relative status and performance of rural business development as opposed to that in urban areas.

(7) An analysis of the status of minority-owned businesses throughout the State.

(8) An assessment of the development capability of the various Regions of the State in terms of their environmental, fiscal, and administrative capacity. Those areas that are handicapped by barriers to development should be highlighted.

(9) An evaluation of the State's economic performance as indicated by the above statistics with the goals and objectives outlined in the Plan.

(l) Accountability. — The Board shall make all data, plans, and reports available to the General Assembly and the Joint Legislative Commission on Governmental Operations at appropriate times and upon request. The Board shall prepare and make available on an annual basis public reports on each of the major sections of the Plan and the Annual Report indicating the degree of success in attaining each development objective."

(d) The Department of Commerce shall establish a planning unit within its executive offices to support the Economic Development Board's ongoing role in economic and community development planning. The unit should consist of two professional staff plus necessary support staff. The planning unit shall assist the Board in coordinating the planning process, monitoring and updating the plan, and collecting and analyzing the data necessary for planning.

(e) Part 2 of Article 10 of Chapter 143B of the General Statutes is amended by adding a new section to read:

"§ 143B-437C. Allocation of economic development responsibilities.

The Economic Development Board created in G.S. 143B-434 shall coordinate economic development efforts among the various agencies and entities, including those created by executive order of the Governor, that receive economic development appropriations and the Board shall recommend to the Governor and to the General Assembly the assignment of key responsibilities for different aspects of economic development. The Board shall recommend to the Governor and to the General Assembly resource allocation and planning designed to encourage each agency to focus on its area of primary responsibility and not diffuse its resources by conducting activities assigned to other agencies."

(f) The terms of all current members of the Economic Development Board shall expire on the date of ratification of this act.

"Eternal God, the Holy Scripture teaches us to 'go the second mile' with those people who really need our help. The men and women of the Senate know a great deal about traveling the second or third mile by now—for they have done it.

"But we are most grateful, O God, that many months ago they made a decision to go the first mile with the people of North Carolina.

"The problem in today's world is that we hear too many sermons about going the second mile but fewer and fewer people are willing to go the first. That's where we need help. That's where we find our hope.

"Thank You for their 'first-mile efforts' in our behalf. Amen."

The Conference Report is ordered placed on the Calendar for tomorrow, Thursday, July 22, for adoption upon second reading.

On motion of Senator Basnight, seconded by Senator Harris, the Senate adjourns at 5:33 P.M. to meet tomorrow, Thursday, July 22, at 11:30 A.M.

ONE HUNDRED SEVENTH DAY

SENATE CHAMBER,
Thursday, July 22, 1993.

The Senate meets pursuant to adjournment and is called to order by the Honorable Dennis A. Wicker, Lieutenant Governor.

Prayer is offered by the Reverend Mike Morris, Senate Chaplain, as follows:

"Dear Lord, we pause from the busy schedule of being public servants to remember one of North Carolina's greatest public servants, former Secretary of State, Thad Eure, who died yesterday.

"We may have seen him sitting on a park bench during lunch at the Capitol talking with passers-by or in his designated chair in this Senate Chamber listening in on a session or personally leading a group of children on a grand tour of the Capitol Building.

"Each of us has a favorite personal snapshot of Mr. Eure, who served our State for over fifty years.

"Like all great people of faith, Thad Eure began serving You in this life by serving others. We pray that in Your Holy Presence, he has found his new assignment. Amen."

Senator Soles, Deputy President *Pro Tempore*, announces the Journal of yesterday, Wednesday, July 21, has been examined and is found to be correct, and offers a motion the Senate dispense with the reading of the Journal and it stand approved as written, which motion prevails (26-0).

With unanimous consent, the President grants a leave of absence for today to Senator Seymour for medical reasons.

Pursuant to the motion of Senator Sands prevailing on July 16, all messages ordered to the House of Representatives are sent by special message.

On motion of Senator Richardson, remarks offered memorializing the late Thad Eure, former Secretary of State of North Carolina, are spread upon the Journal, as follows:

By Senator Harris:

"Mr. President and Members of the Senate, on yesterday North Carolina lost one of its greatest leaders.

"It was my pleasure to have known the Honorable Thaddeus Eure since 1929, simply because he was a great friend of Governor Gardner and was visiting many times; and, at that time Ralph Gardner, the son of the Governor, and myself were schoolmates and, of course, I had several instances to meet him. And to meet a man, one of the greatest North Carolinians, I consider.

"He was, Senator Walker, he was a member of the 'Shelby Dynasty' even though he was born and raised in Gates County in the eastern part of the State. He was a great part of the 'Shelby Dynasty' and, as of today, that is the end of the 'Shelby Dynasty' in my opinion. He had the pleasure of serving under thirteen Governors, of fifty years the Secretary of State, a great record not only in North Carolina, but in the United States. We want to express our regrets to his family and let them know we are thinking about them today. Mr. President, I would like to move that when we adjourn today, we adjourn in honor and memory of Thaddeus Eure."

By Lieutenant Governor Wicker:

"I am sure that all the Senate joins together in extending our deepest sympathy and condolences to the family of Thad Eure."

By Senator Basnight:

"Thank you, Mr. President and Members of this Body. I can't let that moment go by without saying something about 'Mr. Thad.' He was a very special person to all of us in North Carolina. He was one of the greatest North Carolinians to ever live, and I don't believe anybody would denounce that or find any disagreement with a guy who always kept his door open, Aaron. And I recall that the first time I went to the Capitol to see 'Mr. Thad,' and I remember talking to his long-time secretary out front before going in and someone else was there. And I asked about the man and what was special and she spoke of how he loved North Carolina, her people, her land, and all that she offered him and had given him these tremendous opportunities to give back to others. And she told me about the door never closing; that he did do the public's business in the public. And he did it in the best interest of all the people of this wonderful State of ours. And as I went in I looked at him in awe, as we all did, this master, this giant of a man with the famous bowtie, and straw hat that was behind the desk and he pulled the chair up beside his desk and patted me on the leg and chatted with me about what was proper and good for our people and offered his assistance wherever and whenever. He was just a wonderful man. He was a great contribution to what we all should be in giving something to others. He was Mr. North Carolina. We will all miss him—'Mr. Thad.'"

On motion of Senator Basnight, the remarks memorializing Raymond Markham "Pete" Thompson, Sr. are spread upon the Journal, as follows:

By Senator Basnight:

Members of Our Chamber, you will notice a large number of people with us today. An unusually large number have come from Pete's district and his home town, and the parts of the community that he loved so much. This is going to be very difficult for me. He was special to myself. Because of what Pete was—a very loving, caring human being that carried himself at a much higher standard than I ever have been able to. He wanted to see success in everyone's eyes. He wanted people of all color, of all religion, and of all beliefs to share in a very simple common goal, in that we live as a one people dedicated to the welfare and the good being of what is in the best interests of people. Just people, living together.

I first met Pete, and this Resolution, to me, speaks to Pete and Carolyn, because to me they were not a couple that could be separated. Miss Carolyn was special to all who knew her, as was Pete. Miss Carolyn had a habit of telling you what was true and right, and she was very candid. She was a lovely person for those of you who did not have the opportunity to meet her.

My first opportunity, Sherry and Gayle, was in the Washington Country Club where the Medical Society was introducing theirselves to the new members of the General Assembly and those of us who were serving at the time. Pete had just been elected, and I had seen him previously, and I was sitting at the table across from Pete and Miss Carolyn and I remember so distinctly and so well when Miss Carolyn lit up a cigarette, and she looked at me in a little bit of amazement and confusion because I was staring at her—and a purpose in that; and she said, "Do you mind?" I said, "Yes, I do." She says, "Well, get up and leave."

She was like a mother when I was away from Manteo, to me. I always found joy when I would call the Thompson home and had a chance to talk to this wonderful lady who was married to Pete.

Pete and I would leave our home towns, respectively so, and meet at different places, Russell. We would ride across that district, through the poor and the rich, from Hatteras north to the State line in Currituck, all the small towns in between. Over the Currituck, the Pasquotank, the Perquimans, and the Little "Faddy," and the river he loved so much, the Chowan, where he lived. We'd talk about the herring, we'd talk about the melon, we'd talk about the sweet corn. He would tell me what it was like to work in the fields.

He had a habit of stopping places where very few politicians went, Pete did. He would stop at those little country stores, those little crossroad places where he was so welcomed

and loved. He spoke for the common man. He believed in a people's right to become whatever they could become, but you never would become any more than any other person was, no matter what your station was in life. We were all the same. I was in Comstocks one day, a special little place on Water Street in Elizabeth City, where another wonderful North Carolinian lives and works, and I asked him as Pete went to the rest room—and they went to school together—what was Pete like? He said Pete was like what we all should be.

He's the kind of person that I want to be. And Pete is what I think of, and many of you do, I am sure, on a regular basis. Pete was that special human being that comes through your life once, that you get to meet and you never forget those kinds of people.

He was a roommate that I had the opportunity to share thoughts with at the end of a long day in session. And he was always there when it was very difficult, Aaron, things weren't going just right—Pete always had that settling way of explaining the other side and making you realize that your stories weren't the only stories to be told, and that you had to listen a great deal. And, boy, could he be argumentative! Anytime that basketball team at N.C. State University, George, was competing, Pete was on the floor with them. He was into that game, and if he called you a Wolfpacker, he was one as good as any that walked. He loved that University, he loved this State. And, boy, did he love his family and his friends. Mickey, Sherry, Gayle, sisters, family, friends, Pete lives—he lives on—he lives in your hearts as he lives in mine. He was a monstrous man, a mountain of a man. I'll miss him—I'll miss him every day. Thank you.

By Senator Conder:

Ladies and Gentlemen of the Senate. I considered Pete Thompson a very, very close friend of mine, a very dear friend of mine. I'm certainly not a doctor, but I honestly believe that Pete grieved himself to death over Carolyn. We had dinner together at least twice a week while we were in session, generally, Marc, Pete and a few of us would go have dinner together and tell a lot of tales and have a lot of fun, tell a lot of stories. Pete was a man of unquestionable integrity. If Pete Thompson told you something, you could bank on it. You could put it in the bank and forget, it because that was it.

He was also a practical jokester. He loved to play jokes on people, and he sure got 'em back in return. And I know, Mark, several times on the golf course, some of his friends (and I plead innocent to this), would find Pete's ball before Pete got there and they'd shove it over behind a tree or they'd shove it in the water, and do things like that. Lemme tell you something, members of his family and friends, Pete paid 'em back. And rightfully so, but that was the type person that Pete Thompson was.

Just like Marc says, he was looked up to by everybody in this General Assembly, and particularly by those of us who spent a lot of time with him outside of the session, and we're going to miss Pete. We're going to miss him tremendously. His mark has been made upon this State and what he's done for this State, and I commend this Resolution to you because we miss him tremendously, and we miss Carolyn, too. Thank you, very much.

By Senator Plyler:

I, like Marc and Conder, Pete Thompson was a friend to everyone. I remember Pete, my first time to really find out what kind of a person he was. We were meeting at the end of the session, about like we're meeting now, both night and day. And Pete come in one Monday afternoon and he had a watermelon with him—it must have weighed a hundred pounds. And he says, "I brought something to keep ya'll cool late at night. He put that watermelon on refrigeration, then brought it up to one of our late meetings and we sat there and enjoyed one of the best watermelons that I have ever eaten in my life.

Pete was a true friend. We sat and talked about the Extension Service, our experience growing up, he and I being about the same age, on the farms, and the various commodities that are raised across North Carolina. And one of the things that I think we all enjoyed with Pete most was meeting at the Brownestone for breakfast, Beverly, when we

would have 'maters and muffins and mustard. That might not sound good, but it was certainly healthy, Dr. Forrester. And we sat there and we had some molasses to go along with it, too. The several members of the General Assembly would meet there and have fellowship and eat the things that we all dearly loved. We all will miss Pete. He was a dear friend to all, a great North Carolinian, a great legislator, and I say to the family, congratulations to you for having him as long as you have had him, and the things that he added to this great State will never be forgotten. I commend this Resolution to you.

By Senator Odom:

Members of the Senate. I'll be very brief. This is the first time that I've been here in five years that I have had the occasion to rise and speak on behalf of one of our departed members. And I am particularly proud that it is Pete Thompson that this is my first occasion. I got to know Pete very well in 1992, when he and I co-chaired the Solid Waste Study Committee, and Pete convinced me that he was the friend of the environment. We traveled the entire State of North Carolina. We held public hearings and talked with people from Asheville down to the Coast, Charlotte, Raleigh, and other places. Pete's mark on this General Assembly is a testimony to his interest in the environment. We have already enacted a number of bills—two of which we voted on today—that he helped put together from the Solid Waste Study Committee; one is the advance disposal fee on white goods, and the amendment and the increase on the advance disposal fee on motor vehicle tires. He was particularly concerned about the environment, and it was a real privilege for me to have that one year together working on this very important subject. Pete Thompson was not just a good friend of the General Assembly and to the people of this State, but to the environment.

By Senator Warren:

I will not echo what has been said at this point. Pete Thompson was a dear friend of mine. I respected his opinion for many reasons. One thing I say, he had compassion for his fellow man. He was always concerned about what could he do to make life better for people in North Carolina, particularly Eastern North Carolina. He visited me many times in Greenville at the Medical School, in the hospital. He stressed the importance of the Medical School to Eastern North Carolina. He was always speaking and talking about what we could do for the betterment of mankind in our area. And was said so well by the speakers before me, that cover so many things, I say of all things he had compassion. I think that's most important for all of us, for his fellow man, and particular always trying to work to improve our schools in North Carolina, particularly Eastern North Carolina. I always had pride in the privilege of working with Pete Thompson. I recommend the Resolution to you.

By Senator Cooper:

Members of the Senate. Pete Thompson and I went into the House as freshmen together in 1987. I sat behind him on the House floor. He always had a kind word, and not only was he a great legislator, but he was a calming influence in the House. He was a calming influence over me. Pete always jingled the change in his pocket. When it got time to say the prayer at the beginning of the session, everything was silent, except I could hear Pete jingling the change in his pocket. And for some reason, that was a very calming influence on me, because here I am, and here it is again, and here is the jingling, and here we're going on the House floor, and I know Pete Thompson is ahead of me.

He always had a snide comment about the State-Carolina game. Gave me a hard time about that. Was always wanting me to get married. Finally did, and made him happy, but I think that was because he knew what a good marriage was and what it could do for someone. Pete Thompson knew about the desperate needs of the people in Northeastern North Carolina, because he was one of them and he was one of the greatest soldiers in this Legislature for the people in that area. But not only in that area, but all over this

State. I have a little saying that I like to turn to sometimes when I think of what I ought to do in my own life and it reminded me of Pete. And it says that a man who turns his back on human suffering is an average man; a man who turns out his pockets, an admirable man; but a man who turns over his life, he is the best man of all. Pete Thompson turned over his life and he left his mark on this General Assembly and on this State. I commend this Resolution to you.

By Senator Perdue:

I met Pete Thompson—and I might cry, and I don't do that very often here. I met him when I was a freshman legislator. I went to Elizabeth City State, and you know, being from Eastern North Carolina, I ought to have been to Elizabeth City State sometime in my life, but I hadn't been, and I happened to sit with Pete at a caucus of big-wig Senators and Representatives, and he and I were little freshmen, and Pete was laughing at the fact that I hadn't gotten out of Craven County, that I sure was going to find it tough in Wake County. And we took up, we got to be good friends. We lived at the Brownestone Hotel, and Howard Johnson's for eight years together. Pete Thompson was as near to me as any brother I've ever had. But he was a little bit better, I guess, because he never asked anything of me in return for his love and his support and his friendship.

We both grew up on the country, and so I guess we were used to getting up early in the mornings. And I'll never forget the mornings that I went into that hotel lobby and drank coffee while Pete smoked those nasty cigarettes, and I'd say, "Pete, you're going to die," and he'd say, "We're all going to die, but I'm going to die happy, Bev. Why don't you mind your own business?" and I would. Those were good days that we had.

I can remember sitting there one morning. You friends from his home town knew how he felt about his two daughters and his son and his bride, Carolyn. And he talked to me about how sick his wife was, and how he loved her. And I loved him, because there are so few people in this world who can do what Pete and his family did, to see someone they love dying, to cherish her and nourish her and lift her up to the Lord.

One of the saddest days of my life was when my phone rang in New Bern and Howard Chapin, my good friend, said, "Bev, Pete's gone." You don't question the Lord very often in your life, I guess—that's what my preacher says—but that morning, I said, "Why, God? Why did you take him?" He was the good, he was the best, he was what the world should be about. I join all you folks up there in your love and in the honor you feel for that one fine man. He will truly be missed. He's truly missed every single day by all of us here who knew him and who loved him, and who thank you for sending him to us, to share in the joy that we shared in, knowing the man called Pete Thompson.

By Senator Kerr:

My wife, Sandra, and I join in this Resolution. Carolyn and my wife were very close friends. We came to the Legislature with the same class of '87, and I'm sure I knew Pete's name, but I never knew it was Raymond Markham. I probably knew it as a first termer, but I guess Pete is a kind of a common name for a very uncommon person. And I don't believe Raymond would have fitted Pete at all, because one thing about Pete, and I echo what's been said about him today, and I certainly can't call him Raymond. Really, I couldn't remember that was his name, because everybody just knew him as Pete.

Because he was the same way in 1986 when I first met him, and he continued to be that way in 1993. A lot of us come up here, and you get elected once or twice and you have kind of a big head—egos, but Pete was steady. He and I were philosophically close together on a lot of issues, but he was a calming person, but he cared. He was very concerned about the day care problem that affected his part of the State and affected him personally, and that's when I really saw him get excited about some legislative issues that we tried to work on together. But he was a great friend of mine and he was, you know, not Raymond Markham to me, but he was just Pete, and we loved him.

By Senator Blackmon:

Ladies and Gentlemen of the Senate, I probably did not know Pete as well as most of you. However, I did have a chance to meet him in 1991. It doesn't take long to realize that Pete is one tremendous person. You know, we were looking at some of the questions of Senator Marshall's bill this morning, and I was thinking about Pete earlier, and I thought, well, you know, you wouldn't need those bills if we were all "Petes". You just wouldn't need 'em. And I would like to say that if you look up "quality" in a dictionary, you will see Pete's name.

By Senator Speed:

Members of the Senate, all that has been said is certainly true. I had the pleasure of serving with Pete Thompson on several study commissions, as well as being associated with him here in the cafeteria and the halls of the Building, and so forth, and always found him to be a real friendly, fine person. But one thing in particular stood out. He was a great friend of agriculture. We had a lot in common. We served together on the Study Commission on Agriculture and Forestry, and he was a very fine member of that group. He contributed much in that respect. But North Carolina has lost a great friend and prominent citizen, but agriculture has lost one of its best friends.

By Senator Daniel:

Members of the Senate, I only knew Pete Thompson a short while. He, like Senator Cooper, we started our career together in 1987, and I guess what drew us together was the fact that we both were Wolfpackers and are Wolfpackers, or the fact that we had a similar background coming from an agricultural background. Pete sort of posed as a fatherly figure down here, given he was a little older, but also he attended State about the same time as my father; similar date as far as marriage; and with some of the discussions that we had, I could always get fatherly advice from Pete.

He was a very uncomplicated soul. To me he epitomized what the citizen's Legislature here in North Carolina is all about. He represented that little bit of Mayberry that's in each of us and which our State is known for. He was fun-loving. I think that, no matter how complicated it got during the day, his one bright spot in the evening was looking forward to that time when he and Vernon James and Howard Chapin, and Marc Basnight, and sometimes Beverly Perdue, when they'd let her go with them—when that Eastern gang would get together and they'd go find some unfortunate restaurant out here in Raleigh and descend upon it.

He loved a story. He loved a funny story. And periodically he liked a discolored story. And is didn't mind telling a few of them. But that was what Pete was all about. Because what he reminded me of is that no matter how important we think that we are here, that our mission is most important. He showed us that no matter how important our mission is, that we're not too important to poke fun at ourselves and take ourselves for what we really are. He was loyal to a fault. He loved his family. He loved his area and his people. He loved his friends and stuck by them. And he stuck by his University. He stuck by his work here in the Legislature. Pete Thompson is that rare individual that we're all blessed to have an opportunity to spend the time in life with. He's a great North Carolinian, and he'll be sorely missed.

By Senator Albertson:

Members of the Senate. Someone said one time that life was not measured by its duration, but rather by its donation. And I think about Pete Thompson when I think about that quote. He made a great contribution to the citizens and the people of this State, and it was a real honor and privilege for me to have the honor and privilege of serving with him, particularly on the Agriculture Committee. And Senator Speed, you're exactly right. He was a valued member of that Committee. I got to know him through serving there. He had a lot of experience when you started talking about chemicals and

pesticides. Pete Thompson knew what he was talking about, and I can say one final thing in conclusion, and I don't think there's anything greater that you can say about anybody. I believe with all my heart and soul that my life is better by having known Pete Thompson.

By Senator Martin of Pitt:

Ladies and Gentlemen of the Senate. When my telephone rang and I answered it and I was told that Pete Thompson had died, it shocked me to no end, as you could well reckon. And another fact is because on Wednesday evening of that same week, two days prior to his death, Sue and I, Pete, and Vernon and Thelma, and one or two other couples had had dinner together, and it was a very enjoyable evening. But I noticed that Pete was not as talkative, he was not as much a part of the process as he usually was, and the first thing I thought about was that dinner we had on Wednesday night and that I never knew, I often wondered, what was going across Pete's mind on Wednesday evening.

I got to know Pete soon after he arrived in the Legislature because they assigned him an office on my way to Room 605, where we had Appropriations N&ER meet every morning, Marc, at 8:30. He was always, most of the time, standing in the door—that's where I met him, standing in the door. And he had peanuts, he had invited me to participate in his peanut jar, and as it got to be a custom and I would always go by there on the way to 605 and most of the time I'd drop in and get me a few peanuts, and after eating his peanuts for a month or two, I was getting tired of peanuts and I told Pete that I was tired of peanuts and wanted some cashew nuts. He said, "If you get cashew nuts, you'll go to Winn-Dixie to get 'em. I won't give 'em to you."

But, anyway, I traveled also got around with Pete some with Marc and the others from, as you say, George, from the Eastern crowd. It was a motley crowd, they would raid places once they were in there, but we got out pretty good. And I learned to appreciate Pete, as all of you have here, not only in the Senate, but in the House, as a man of sterling character, a man, as it has been said, if he told you something, you could take it to the bank. Not only that, was he of sterling character, but he was also a very well-versed man and especially in agriculture and also in the doings of the North Carolina State Wolfpack. I used to pull his leg a little by saying some critical things about the Wolfpack in favor of Duke, and that would raise his eyes just a little bit, but he learned to know that I was trying to do that to him and I would only say this, Mr. President, Ladies and Gentlemen, is that I'm glad that Pete Thompson crossed my pathway. I know that I will be a better person because of that, and certainly I would urge you to adopt this Resolution.

By Lieutenant Governor Wicker:

The Chair would like to make just a few remarks about Pete Thompson. I served with Pete Thompson in the House for three terms, and I won't echo the things that have already been said about him. All of them are true. I sat beside Pete on the floor, over there in that corner with Vernon James and Pete and those, and came to know Pete very well. And he, indeed, was a special person.

I think that Pete—I would call him a promoter. He was promoting a cause, he was promoting another individual, but he was never promoting himself. I think that's a special characteristic of a person. We all love him, we are all going to miss him. And, Members of the Senate, as I have said before, truly another great oak has fallen in North Carolina.

The joint resolution passes its second reading (44-0) and third reading with members standing and is ordered enrolled.

The Chair extends courtesies of the gallery to the Sherry and Gayle, daughters of the late "Pete Thompson," and to other family members and the numerous friends who are present to salute the life of this great North Carolinian.

The Senate recesses at 3:00 P.M. for the purpose of committee meetings to reconvene at 3:45 P.M.

Conferees for the House of Representatives

The text of the attached Proposed Conference Committee Substitute S14-CCSLC-7/21 is as follows:

A BILL TO BE ENTITLED AN ACT TO AUTHORIZE THE ISSUANCE OF GENERAL OBLIGATION BONDS OF THE STATE, SUBJECT TO A VOTE OF THE QUALIFIED VOTERS OF THE STATE, TO PROVIDE FUNDS FOR (1) CAPITAL IMPROVEMENTS FOR THE UNIVERSITY OF NORTH CAROLINA, (2) GRANTS TO COMMUNITY COLLEGES FOR CAPITAL IMPROVEMENTS, (3) GRANTS, LOANS, AND REVOLVING LOANS TO LOCAL GOVERNMENT UNITS FOR WATER SUPPLY SYSTEMS, WASTEWATER COLLECTION SYSTEMS, WASTEWATER TREATMENT WORKS, AND WATER CONSERVATION PROJECTS, AND (4) CAPITAL IMPROVEMENTS AND LAND ACQUISITION FOR NEW AND EXISTING STATE PARKS AND RECREATION AREAS.

The General Assembly of North Carolina enacts:

Section 1. Short title. This act shall be known and may be cited as the "Education, Clean Water, and Parks Bond Act of 1993".

Sec. 2. Purpose. It is the intent of the General Assembly by this act to provide for the issuance of general obligation bonds of the State, and to provide that the proceeds realized from the sale of the bonds shall be allocated as follows:

(1) Three hundred ten million dollars ($310,000,000) to provide capital improvements for the constituent and affiliated institutions of The University of North Carolina or for the Board of Governors of The University of North Carolina.

(2) Two hundred fifty million dollars ($250,000,000) to provide grants to individual community colleges to finance the costs of community college capital improvements for community colleges in this State.

(3) Forty-five million dollars ($45,000,000) to provide State matching funds required to receive federal wastewater or water supply assistance funds and to provide additional funding for the Clean Water Revolving Loan and Grant Fund established in Chapter 159G of the General Statutes or to provide funding by grants and loans to local government units, and one hundred million dollars ($100,000,000) to provide loans to local government units to finance all or a portion of the cost of construction, improvements, enlargements, extensions, and reconstruction of water supply systems, wastewater collection systems, wastewater treatment works, and water conservation projects.

The funds to be derived from the sale of the Clean Water bonds authorized by this act are sufficient to meet no more than a fraction of the needs which now exist and will arise in the immediate future. For this reason, although public necessity and the criteria established by Chapter 159G of the General Statutes shall be the primary consideration in granting and loaning funds, great emphasis shall also be placed on the creation of

efficient systems of regional wastewater disposal and regional water supply, and on the willingness and ability of local government units to meet their responsibilities through sound fiscal policies, creative planning, and efficient operation and management.

(4) Thirty-five million dollars ($35,000,000) to provide capital improvements in the form of repairs, renovations, new construction, and land acquisition for existing State parks and recreation areas.

   c. Such other provision as the State Treasurer may determine to be consistent with this act and will not materially and adversely affect the financial position of the State and the marketing of bonds or notes at a reasonable interest cost to the State.

Sec. 5. Uses of bond and note proceeds. (a) University Improvement Bonds. The proceeds of University Improvement Bonds and notes shall be used for the purpose of (i) paying the cost of capital improvements for the constituent or affiliated institutions of The University of North Carolina, under the supervision of the Board of Governors of The University of North Carolina, including, without limitation, construction and renovation of classroom buildings, laboratory buildings, research facilities, libraries, physical education facilities, continuing education centers, student cafeteria and activity facilities, including sports facilities, administrative office buildings, and land acquisition, (ii) paying the cost of capital improvements for the North Carolina Center for Public Television under the Board of Governors of The University of North Carolina, and (iii) making grants to nonprofit corporations and public agencies to provide capital improvements for Area Health Education Centers. Grants made to provide capital improvements for Area Health Education Centers shall be made only to nonprofit corporations and public agencies. The rules and regulations and agreements governing the Area Health Education Center Program shall contain provisions necessary to assure that the proceeds of the bonds or notes are applied for the accomplishment of public purposes only within the meaning of Article V, Section 2 of the North Carolina Constitution, including, without limitation, provisions to assure that the grant moneys are applied to the payment of the cost of capital improvements used in connection with the Area Health Education Center Program and further shall contain provisions to assure compliance with G.S. 143-6.1. The buildings constructed using the proceeds of the bonds, other than any buildings constructed with Area Health Education Centers Construction Grants, may be constructed only after consideration of the energy design guidelines developed by the Energy Division of the Department of Commerce.

Any additional moneys that may be received by means of a grant or grants from the United States of America or any agency or department thereof or from any other source to aid in financing the cost of any university improvements authorized by this act may be placed by the State Treasurer in the University Improvement Bonds Fund or in a separate account or fund and shall be disbursed, to the extent permitted by the terms of the grant or grants, without regard to any limitations imposed by this act.

The proceeds of University Improvement Bonds and notes may be used with any other moneys made available by the General Assembly for the making of university improvements, including the proceeds of any other State bond issues, whether heretofore made available or which may be made available at the session of the General Assembly at which this act is ratified or any subsequent sessions. The proceeds of University Improvement Bonds and notes shall be expended and disbursed under the direction and

supervision of the Director of the Budget. The funds provided by this act for university improvements shall be disbursed for the purposes provided in this act upon warrants drawn on the State Treasurer by the State Controller, which warrants shall not be drawn until requisition has been approved by the Director of the Budget and which requisition shall be approved only after full compliance with the Executive Budget Act, Article 1 of Chapter 143 of the General Statutes.

The Board of Governors of The University of North Carolina shall provide quarterly reports to the Joint Legislative Commission on Governmental Operations, the chairs of the Senate and House of Representatives Appropriations Committees, and the Fiscal Research Division on the expenditure of moneys from the University Improvement Bonds Fund.

(b) Community College Bonds. The proceeds of Community College Bonds and notes shall be used for the purpose of making grants to community colleges, as defined in Chapter 115D of the General Statutes, the proceeds of the grants to be allocated and expended for paying the cost of Community College capital improvements, including, without limitation, construction and renovation of classroom buildings, laboratory buildings, research facilities, libraries, physical education facilities, continuing education centers, student cafeteria and activity facilities, including sports facilities, administrative office buildings, and related equipment and land acquisition. The buildings constructed using the proceeds of the bonds may be constructed only after consideration of the energy design guidelines developed by the Energy Division of the Department of Commerce.

Any additional moneys which may be received by means of a grant or grants from the United States of America or any agency or department thereof or from any other source to aid in financing the cost of any Community College grants authorized by this act may be placed by the State Treasurer in the Community College Bonds Fund or in a separate account or fund and shall be disbursed, to the extent permitted by the terms of the grant or grants, without regard to any limitations imposed by this act.

The proceeds of Community College Bonds and notes may be used with any other moneys made available by the General Assembly for the making of Community College grants, including the proceeds of any other State bond issues, whether heretofore made available or which may be made available at the session of the General Assembly at which this act is ratified or any subsequent sessions. The proceeds of Community College Bonds and notes shall be expended and disbursed under the direction and supervision of the Director of the Budget. The funds provided by this act for Community College improvements shall be disbursed for the purposes provided in this act upon warrants drawn on the State Treasurer by the State Controller, which warrants shall not be drawn until requisition has been approved by the Director of the Budget and which requisition shall be approved only after full compliance with the Executive Budget Act, Article 1 of Chapter 143 of the General Statutes.

The State Board of Community Colleges shall provide quarterly reports to the Joint Legislative Commission on Governmental Operations, the chairs of the Senate and House of Representatives Appropriations Committees, and the Fiscal Research Division on the expenditure of moneys from the Community College Bonds Fund.

(c) Clean Water Bonds. The proceeds of Clean Water Bonds and notes shall be used for the purpose of making loans and grants to local governments as follows:

(1) The proceeds of forty-five million dollars ($45,000,000) of Clean Water Bonds shall be used and allocated for the same purposes for which funds in the Clean Water Revolving Loan and Grant Fund may be used including, without limitation, to provide funds to be used to make revolving loans and grants to local government units. The revolving loans and grants shall be made for the purpose of paying the cost of water supply systems, wastewater collection systems, and wastewater treatment works.

The first priority for use of these proceeds shall be to provide State funds necessary for the 1993-95 fiscal biennium to match the federal wastewater

or water supply assistance funds, deposited in the Clean Water Pollution Control Revolving Fund or another fund, that are available from year to year, unless the General Assembly has provided other funds for this purpose, in which event this priority shall cease to exist to the extent of the availability of those other funds. For the purpose of implementing this priority, the Department of Environment, Health, and Natural Resources shall certify to the State Treasurer the amount of funds required for the State match for each of the fiscal years ending June 30, 1994, and June 30, 1995, and the extent to which the General Assembly has provided other funds for this purpose. Upon certification to the State Treasurer of the amount of funds required for the State match for the fiscal year ending June 30, 1994, the State may issue up to twenty-two million five hundred thousand dollars ($22,500,000) of Clean Water Bonds authorized by this subdivision for the purpose of funding the State match for that fiscal year and for any other purposes authorized by this subdivision. Upon certification to the State Treasurer of the amount of funds required for the State match for the fiscal year ending June 30, 1995, the State may issue the remaining balance of Clean Water Bonds authorized by this subdivision for the purpose of funding the State match for that fiscal year and for any other purposes authorized by this subdivision. The proceeds of the bonds necessary for the State match for each fiscal year shall be deposited in the Clean Water Pollution Control Revolving Fund or any other fund or account determined by the State Treasurer.

The proceeds may be (i) transferred directly to the Clean Water Revolving Loan and Grant Fund to make revolving loans or grants, (ii) used to make revolving loans or grants directly to the appropriate local government qualifying for a revolving loan or grant from the Clean Water Revolving Loan and Grant Fund, (iii) used for any combination of (i) and (ii), or (iv) used in such other manner as shall effectuate the purposes of this act. Although public necessity and the criteria established by Chapter 159G of the General Statutes shall be the primary consideration in granting and loaning funds, great emphasis shall be placed on the creation of efficient systems of regional wastewater disposal and regional water supply, and on the willingness and ability of local government units to meet their responsibilities through sound fiscal policies, creative planning, and efficient operation and management. Loans and grants made from bond proceeds transferred from the Clean Water Bonds Fund to the Clean Water Revolving Loan and Grant Fund shall be made and administered in accordance with the provisions of the Clean Water Revolving Loan and Grant Act. Loans and grants made from bond proceeds directly to local government units and any loan repayments shall, to the extent applicable, be made, administered, and applied in accordance with the provisions of the Clean Water Revolving Loan and Grant Act. Repayments of any direct loans may be initially placed into any fund or account as may be determined by the State Treasurer for the purpose of determining compliance with the applicable requirements of the federal tax law and shall be expended and disbursed therefrom under the direction and supervision of the Director of the Budget.

(2) The proceeds of one hundred million dollars ($100,000,000) of Clean Water Bonds shall be used for the purpose of making loans to local government units to pay the cost of water supply systems, water conservation projects, wastewater collection systems, and wastewater treatment works. Sixty-nine percent (69%) of the proceeds of the bonds and notes shall be allocated for loans to local government units for wastewater collection systems and wastewater treatment works. Thirty-one percent (31%) of the

proceeds of the bonds and notes shall be allocated for loans to local government units for water supply systems and water conservation projects.

The proceeds shall be used to make loans directly to local government units qualifying for a loan from the Clean Water Revolving Loan and Grant Fund or loaned in such other manner as shall effectuate the purposes of this act. To qualify for a loan from the Clean Water Bonds Fund for the purpose of paying the cost of water supply systems, a local government unit must have a water supply facility plan approved by the Department of Environment, Health, and Natural Resources. A water supply facility plan submitted by a local government unit to the Department under G.S. 143-355(l) will be sufficient to meet this requirement. To qualify for a loan from the Clean Water Bonds Fund for the purpose of paying the cost of wastewater collection systems or wastewater treatment works, a local government unit must have a wastewater facility plan approved by the Department of Environment, Health, and Natural Resources. A wastewater facility plan must project future wastewater treatment needs, must present a long-range plan to meet those needs, and must include plans for system operations and maintenance of the facilities being built with the bond proceeds.

The Department of Environment, Health, and Natural Resources shall set the priorities and determine the eligibility of local government units for these loans in accordance with Section 10 of this act. The form of the loans and the details thereof including, without limitation, the maturity, interest rate, and amortization schedule, shall be determined, from time to time, by the State Treasurer. In making these determinations, the State Treasurer shall consider the purpose of the loans, the ability of local government units to repay the loans, and the security for the loans. The interest rates on these loans shall reflect the self-supporting nature of the loan program and shall be sufficient to cover substantially all payments of debt service on the one hundred million dollars ($100,000,000) of Clean Water Bonds and the issuance costs and administrative expenses associated with the issuance of these bonds and the making of these loans, subject to any applicable requirements of the federal tax law.

Repayments of the loans shall be credited to the General Fund and may be used to pay, directly or indirectly, debt service on the bonds and notes issued. Repayments may be initially placed into such fund or account as may be determined by the State Treasurer for the purpose of determining compliance with applicable requirements of the federal tax law and shall be expended and disbursed therefrom under the direction and supervision of the Director of the Budget.

Any additional moneys which may be received by means of a grant or grants from the United States of America or any agency or department thereof or from any other source for deposit to the Clean Water Bonds Fund may be placed in the Clean Water Bonds Fund or in a separate account or fund and shall be disbursed, to the extent permitted by the terms of the grant or grants, without regard to any limitations imposed by this act.

The proceeds of bonds and notes may be used with any other moneys made available by the General Assembly for making grants and loans authorized by this act, including the proceeds of any other State bond issues, whether heretofore made available or which may be made available at the session of the General Assembly at which this act is ratified or any subsequent sessions. The proceeds of bonds and notes shall be expended and disbursed under the direction and supervision of the Director of the Budget. The funds provided by this act shall be disbursed for the purposes provided in this act upon warrants drawn on the State Treasurer by the State Controller, which warrants shall not be drawn until requisition has been approved by the Director of the

Budget and which requisition shall be approved only after full compliance with the Executive Budget Act, Article 1 of Chapter 143 of the General Statutes.

(d) State Parks Bonds. The proceeds of State Parks Bonds and notes shall be used for the purpose of paying the cost of capital improvements for new and existing State parks and recreation areas including, without limitation, land acquisition and the repair, renovation, and construction of visitors' centers, parking lots and access roads, dams, picnic areas, ranger residences, tent and trailer campsites, boat and canoe launching areas, rental cabins, boathouses, swimming facilities, trails, exhibits, storage buildings, water and wastewater systems, electrical systems, and underground fuel tanks. No more than thirty percent (30%) of the proceeds of the State Parks Bonds and notes for land acquisition may be used, however, for land acquisition.

Any additional moneys which may be received by means of a grant or grants from the United States of America or any agency or department thereof or from any other source for deposit to the State Parks Bonds Fund may be placed in the State Parks Bonds Fund or in a separate account or fund and shall be disbursed, to the extent permitted by the terms of the grant or grants, without regard to any limitations imposed by this act.

The proceeds of bonds and notes may be used with any other moneys made available by the General Assembly for the cost of State parks and recreation facilities including the proceeds of any other State bond issues, whether heretofore made available or which may be made available at the session of the General Assembly at which this act is ratified or any subsequent sessions. The proceeds of bonds and notes shall be expended and disbursed under the direction and supervision of the Director of the Budget. The funds provided by this act shall be disbursed for the purposes provided in this act upon warrants drawn on the State Treasurer by the State Controller, which warrants shall not be drawn until requisition has been approved by the Director of the Budget and which requisition shall be approved only after full compliance with the Executive Budget Act, Article 1 of Chapter 143 of the General Statutes.

Sec. 6. Allocation of proceeds. (a) University Improvement Bonds. The proceeds of University Improvement Bonds and notes, including premium thereon, if any, except the proceeds of bonds the issuance of which has been anticipated by bond anticipation notes or the proceeds of refunding bonds or notes, shall be placed by the State Treasurer in a special fund to be designated "University Improvement Bonds Fund". Moneys in the University Improvement Bonds Fund shall be used for the purposes set forth in this act. The proceeds of University Improvement Bonds and notes shall be allocated and expended for paying the cost of university capital improvements, to the extent and as provided in this act and subject to change as provided in this act, as follows:

TOTAL		$226,100,000

Projected allocations set forth above may be adjusted to reflect the availability of other funds. The Board of Trustees of an individual community college may change the projects or allocations for that college, but not for a satellite campus, within the total amount of funds allocated for that college; the Board of Trustees may not, however, change, reduce, or eliminate a project or an allocation at a satellite campus of the community college.

The Director of the Budget is empowered, when the Director of the Budget determines it is in the best interest of the State and the North Carolina Community College System to do so, and if the cost of a particular project is less than the projected allocation, to use the excess funds to increase the size of that project or increase the size of any other project itemized in this section, or to increase the amount allocated to a particular community college within the aggregate amount of funds available under this section. The Director of the Budget may consult with the Advisory Budget Commission and the Joint Legislative Commission on Governmental Operations before making these changes. In addition, the particular capital improvements and the amount of the projected allocation therefor set forth above may be changed from time to time as the General Assembly may decide.

II. The proceeds of grants made from the proceeds of twenty-three million nine hundred thousand dollars ($23,900,000) Community College Bonds and notes shall be allocated and expended for particular projects to be determined as hereinafter provided. The proceeds of twenty-three million nine hundred thousand dollars ($23,900,000) Community College Bonds or notes shall not be issued and no proceeds of twenty-three million nine hundred thousand dollars ($23,900,000) Community College Bonds or notes shall be allocated for the purposes provided in this act, however, until the General Assembly authorizes the issuance of some or all of these Community College Bonds or notes and appropriates the proceeds of these bonds and notes for specific projects within these purposes by separate legislative action in addition to this act in 1994 or at any subsequent session.

It is the intent of the General Assembly to appropriate the proceeds of the bonds and notes in 1994 or at a subsequent session based on consideration of the recommendations of the Legislative Study Commission on Community College Capital Needs in its report to be submitted to the General Assembly by April 1994 as provided in Section 11 of this act. Actual appropriations by the General Assembly in 1994 or at a subsequent session may be made without regard to the expressed intentions set forth above.

Nothing in this act or as a result of the approval of the bonds at the election provided for in this act restricts the right of the General Assembly, in addition to the right to specify the projects and the allocations therefor, in 1994 or at a subsequent session to:

(1) Establish a procedure whereby projected allocations set forth in subsequent legislation may be increased or decreased to reflect the availability of other funds, including, without limitation, contingency funds, income earned on the investment of bond and notes proceeds, and the proceeds of grants.

(2) Establish a contingency account and provide for an allocation of bond proceeds thereto. The funds in the contingency account may be used to pay the cost of projects, the costs of issuance of bonds and notes, and increased project costs resulting from construction costs exceeding projections, inflationary factors, and changes in projects and allocations. The funds

allocated to the contingency account shall be placed by the State Treasurer in a separate account in the Community College Bonds Fund and shall be disbursed in accordance with the procedures established for disbursements from the Community College Bonds Fund.

(3) Empower the Director of the Budget, when the Director determines it is in the best interest of the State and the Community College System to do so, and if the cost of a particular project is less than the projected allocation, to use the excess funds to increase the size of that project or increase the size of any other project authorized by the General Assembly.

III. Allocations to the costs of a capital improvement or undertaking in each case may include allocations to pay the costs set forth in Section 3(4)c., d., e., f., and g. of this act in connection with the issuance of bonds for that capital improvement or undertaking. The matching requirements of G.S. 115D-31(a)(1) apply to the proceeds of Community College Bonds and notes used to make grants to community colleges.

(c) Clean Water Bonds. The proceeds of Clean Water Bonds and notes, including premium thereon, if any, except the proceeds of bonds the issuance of which has been anticipated by bond anticipation notes or the proceeds of refunding bonds or notes, shall be placed by the State Treasurer in a special fund to be designated "Clean Water Bonds Fund", which may include such appropriate special accounts therein as may be determined by the State Treasurer, and shall be disbursed as provided in this act. Moneys in the Clean Water Bonds Fund shall be allocated and expended as provided in this act.

(d) State Parks Bonds. The proceeds of State Parks Bonds and notes, including premium thereon, if any, except the proceeds of bonds the issuance of which has been anticipated by bond anticipation notes or the proceeds of refunding bonds or notes, shall be placed by the State Treasurer in a special fund to be designated "State Parks Bonds Fund", which may include such appropriate special accounts therein as may be determined by the State Treasurer, and shall be disbursed as provided in this act. Moneys in the State Parks Bonds Fund shall be used for the purposes set forth in this act, and the particular projects within such purposes to be financed in whole or in part from the proceeds shall be determined as hereinafter provided.

No State Parks Bonds or notes shall be issued and no proceeds of State Parks Bonds and notes shall be allocated for the purposes provided in this act, however, until the General Assembly authorizes issuance of some or all of State Parks Bonds and notes and appropriates the proceeds of the bonds and notes for specific projects within these purposes by separate legislative action in addition to this act in 1993 or at any subsequent session. The General Assembly shall appropriate no more than thirty percent (30%) of the proceeds of the bonds and notes for land acquisition.

It is the intent of the General Assembly to appropriate the proceeds of the bonds and notes in 1994 or at a subsequent session based on the recommendations of the Department of Environment, Health, and Natural Resources in its State parks capital improvement and land acquisition plan to be submitted to the General Assembly by May 1994 as provided in Section 11 of this act. Actual appropriations by the General Assembly in 1993 or at a subsequent session may be made without regard to the expressed intentions set forth above.

Nothing in this act or as a result of the approval of the bonds at the election provided for in this act restricts the right of the General Assembly in 1993 or at a subsequent session to:

(1) Establish a procedure whereby projected allocations set forth in subsequent legislation may be increased or decreased to reflect the availability of other funds, including, without limitation, contingency funds, income earned on the investment of bonds and notes proceeds, and the proceeds of grants.

(2) Establish a contingency account and provide for an allocation of bond proceeds thereto. The funds in the contingency account may be used to pay the cost of projects, the costs of issuance of bonds and notes, and increased

project costs resulting from construction costs exceeding projections, inflationary factors, and changes in projects and allocations. The funds allocated to the contingency account shall be placed by the State Treasurer in a separate account in the State Parks Bonds Fund and shall be disbursed in accordance with the procedures established for disbursements from the State Parks Bonds Fund.

(3) Empower the Director of the Budget, when the Director determines it is in the best interest of the State and the State Parks System to do so, and if the cost of a particular project is less than the projected allocation, to use the excess funds to increase the size of that project or increase the size of any other project itemized by the General Assembly, or to increase the amount allocated to a particular project within the aggregate amount of funds available under this section; the Director of the Budget having the right to consult with the Advisory Budget Commission and the Joint Legislative Commission on Governmental Operations.

(4) Provide that to the extent that funds are not required to be expended for the specific projects identified by the General Assembly, allocations may be used for capital outlay projects at any State park as replacement projects, but no such funds may be used for operating expenditures.

Allocations to the costs of a capital improvement or undertaking in each case may include allocations to pay the costs set forth in Section 3(4)c., d., e., f., and g. of this act in connection with the issuance of bonds for that capital improvement or undertaking.

Sec. 7. Election. The questions of the issuance of the bonds authorized by this act shall be submitted to the qualified voters of the State at an election to be held on the first Tuesday after the first Monday of November 1993. Any other primary, election, or referendum validly called or scheduled by law at the time the election on the bond questions provided for in this section is held, may be held as called or scheduled. Notice of the election on the bond questions shall be given by publication twice in a newspaper or newspapers having general circulation in each county in the State, and the election and the registration of voters therefor shall be held under and in accordance with the general laws of the State. Absentee ballots shall be authorized in the election.

The State Board of Elections shall reimburse the counties of the State for all necessary expenses incurred in holding the election that are in addition to those that would have otherwise been incurred, the same to be paid out of the Contingency and Emergency Fund or other funds available to the State Board of Elections.

Voting machines, ballots, or both may be used in accordance with rules prescribed by the State Board of Elections. The bond questions to be used in the voting machines and ballots shall be in substantially the following forms:

If a majority of those voting on a bond question in the election vote in favor of the issuance of the bonds described in the question, those bonds may be issued as provided in this act. If a majority of those voting on a bond question in the election vote against the issuance of the bonds described in the question, those bonds shall not be issued.

The results of the election shall be canvassed and declared as provided by law for elections for State officers; the results of the election shall be certified by the State Board of Elections to the Secretary of State, in the manner and at the time provided by the general election laws of the State.

Sec. 8. Issuance of bonds and notes. (a) Terms and Conditions. Bonds or notes may bear such date or dates, may be serial or term bonds or notes, or any combination thereof, may mature in such amounts and at such time or times, not exceeding 40 years from their date or dates, may be payable at such place or places, either within or without the United States of America, in such coin or currency of the United States of America as at the time of payment is legal tender for payment of public and private debts, may bear interest at such rate or rates, which may vary from time to time, and may be made redeemable before maturity, at the option of the State or otherwise as may be provided by the State, at such price or prices, including a price less than the face amount

of the bonds or notes, and under such terms and conditions, all as may be determined by the State Treasurer, by and with the consent of the Council of State.

(b) Signatures; Form and Denomination; Registration. Bonds or notes may be issued as certificated or uncertificated obligations. If issued as certificated obligations, bonds or notes shall be signed on behalf of the State by the Governor or shall bear his facsimile signature, shall be signed by the State Treasurer or shall bear his facsimile signature, and shall bear the Great Seal of the State or a facsimile thereof shall be impressed or imprinted thereon. If bonds or notes bear the facsimile signatures of the Governor and the State Treasurer, the bonds or notes shall also bear a manual signature which may be that of a bond registrar, trustee, paying agent, or designated assistant of the State Treasurer. Should any officer whose signature or facsimile signature appears on bonds or notes cease to be such officer before the delivery of the bonds or notes, the signature or facsimile signature shall nevertheless have the same validity for all purposes as if the officer had remained in office until delivery and bonds or notes may bear the facsimile signatures of persons who at the actual time of the execution of the bonds or notes shall be the proper officers to sign any bond or note although at the date of the bond or note such persons may not have been such officers. The form and denomination of bonds or notes, including the provisions with respect to registration of the bonds or notes and any system for their registration, shall be as the State Treasurer may determine in conformity with this act; provided, however, that nothing in this act shall prohibit the State Treasurer from proceeding, with respect to the issuance and form of the bonds or notes, under the provisions of Chapter 159E of the General Statutes, the Registered Public Obligations Act, as well as under this act.

(c) Manner of Sale; Expenses. Subject to determination by the Council of State as to the manner in which bonds or notes shall be offered for sale, whether at public or private sale, whether within or without the United States of America and whether by publishing notices in certain newspapers and financial journals, mailing notices, inviting bids by correspondence, negotiating contracts of purchase or otherwise, the State Treasurer is authorized to sell bonds or notes at one time or from time to time at such rate or rates of interest, which may vary from time to time, and at such price or prices, including a price less than the face amount of the bonds or the notes, as the State Treasurer may determine. All expenses incurred in preparation, sale, and issuance of bonds or notes shall be paid by the State Treasurer from the proceeds of bonds or notes or other available moneys.

(d) Notes; Repayment.

(1) By and with the consent of the Council of State, the State Treasurer is hereby authorized to borrow money and to execute and issue notes of the State for the same, but only in the following circumstances and under the following conditions:

a. For anticipating the sale of bonds to the issuance of which the Council of State shall have given consent, if the State Treasurer shall deem it advisable to postpone the issuance of the bonds;

b. For the payment of interest on or any installment of principal of any bonds then outstanding, if there shall not be sufficient funds in the State treasury with which to pay the interest or installment of principal as they respectively become due;

c. For the renewal of any loan evidenced by notes herein authorized;

d. For the purposes authorized in this act; and

e. For refunding bonds or notes as herein authorized.

(2) Funds derived from the sale of bonds or notes may be used in the payment of any bond anticipation notes issued under this act. Funds provided by the General Assembly for the payment of interest on or principal of bonds shall be used in paying the interest on or principal of any notes and any renewals thereof, the proceeds of which shall have been used in paying interest on or principal of the bonds.

(e) Refunding Bonds and Notes. By and with the consent of the Council of State, the State Treasurer is authorized to issue and sell refunding bonds and notes pursuant to the provisions of the State Refunding Bond Act for the purpose of refunding bonds or notes issued pursuant to this act. The refunding bonds and notes may be combined with any other issues of State bonds and notes similarly secured.

(f) Tax Exemption. Bonds and notes shall be exempt from all State, county, and municipal taxation or assessment, direct or indirect, general or special, whether imposed for the purpose of general revenue or otherwise, excluding inheritance and gift taxes, income taxes on the gain from the transfer of bonds and notes, and franchise taxes. The interest on bonds and notes shall not be subject to taxation as to income.

(g) Investment Eligibility. Bonds and notes are hereby made securities in which all public officers, agencies, and public bodies of the State and its political subdivisions, all insurance companies, trust companies, investment companies, banks, savings banks, savings and loan associations, credit unions, pension or retirement funds, other financial institutions engaged in business in the State, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Bonds and notes are hereby made securities which may properly and legally be deposited with and received by any officer or agency of the State or political subdivision of the State for any purpose for which the deposit of bonds, notes, or obligations of the State or any political subdivision is now or may hereafter be authorized by law.

(h) Faith and Credit. The faith and credit and taxing power of the State are hereby pledged for the payment of the principal of and the interest on bonds and notes. In addition to the State's right to amend any provision of this act to the extent it does not impair any contractual right of a bond owner, the State expressly reserves the right to amend any provision of this act with respect to the making and repayment of loans, the disposition of any repayments of loans, and any intercept provisions relating to the failure of a local government unit to repay a loan, the bonds not being secured in any respect by loans, any repayments thereof, or any intercept provisions with respect thereto.

Sec. 9. Variable interest rates. In fixing the details of bonds and notes, the State Treasurer may provide that any of the bonds or notes may:

(1) Be made payable from time to time on demand or tender for purchase by the owner thereof provided a credit facility supports the bonds or notes, unless the State Treasurer specifically determines that a credit facility is not required upon a finding and determination by the State Treasurer that the absence of a credit facility will not materially or adversely affect the financial position of the State and the marketing of the bonds or notes at a reasonable interest cost to the State;

(2) Be additionally supported by a credit facility;

(3) Be made subject to redemption or a mandatory tender for purchase prior to maturity;

(4) Bear interest at a rate or rates that may vary for such period or periods of time, all as may be provided in the proceedings providing for the issuance of the bonds or notes, including, without limitation, such variations as may be permitted pursuant to a par formula; and

(5) Be made the subject of a remarketing agreement whereby an attempt is made to remarket bonds or notes to new purchasers prior to their presentment for payment to the provider of the credit facility or to the State.

If the aggregate principal amount repayable by the State under a credit facility is in excess of the aggregate principal amount of bonds or notes secured by the credit facility, whether as a result of the inclusion in the credit facility of a provision for the payment of interest for a limited period of time or the payment of a redemption premium or for any other reason, then the amount of authorized but unissued bonds or notes during the term of such credit facility shall not be less than the amount of such excess, unless the

payment of such excess is otherwise provided for by agreement of the State executed by the State Treasurer.

Sec. 10. Special provisions governing clean water loans. (a) Scope. The provisions of this section shall apply to loans being made from the proceeds of bonds authorized by this act for clean water projects, other than from funds deposited in the Clean Water Revolving Loan and Grant Fund.

(b) Clean Water Bonds Loan Fund. There is established in the Department of State Treasurer a fund to be known as the Clean Water Bonds Loan Fund, which may include any special or segregated accounts the State Treasurer considers appropriate. There shall be deposited in the Clean Water Bonds Loan Fund proceeds of the Clean Water Bonds and notes to be used to make loans, other than loans to be made through the Clean Water Revolving Loan and Grant Fund, to local government units for clean water projects as provided in this act. Funds in the various accounts may be invested from time to time by the State Treasurer in the same manner permitted for investments of funds belonging to the State or held in the State treasury. Any investment earnings shall be credited to the particular account from which the investment was made.

All moneys accruing to the credit of the Clean Water Bonds Loan Fund, other than funds set aside for administrative expenses, including expenses related to determining compliance with applicable requirements of the federal tax law and costs of issuance, shall be used to make loans for the purposes provided in this act. The State Treasurer shall be responsible for making and administering all loans pursuant to the provisions of this section.

(c) Application for Loans; Hearings.

(1) Eligibility/Initial Hearing.

a. Prior to filing an application for a loan, a local government unit shall hold a public hearing. A notice of the public hearing shall be published once at least 10 days before the date fixed for the hearing.

b. All applications for loans shall be filed with the Department of Environment, Health, and Natural Resources. The form of the application shall be prescribed by the Department and shall require any information necessary to determine the eligibility for a loan under the provisions of this section. All applications approved by the Department of Environment, Health, and Natural Resources shall be filed with the Local Government Commission. Each applicant shall furnish to the Department of Environment, Health, and Natural Resources and the Local Government Commission information in addition or supplemental to the information contained in its application, upon request.

c. A local government unit shall not be eligible for a loan unless it demonstrates to the satisfaction of the Department of Environment, Health, and Natural Resources and the Local Government Commission that:

1. The applicant is a local government unit;
2. The applicant has the financial capacity to pay the principal of and interest on its proposed loan as evidenced by the approval of the Local Government Commission;
3. The applicant has substantially complied or will substantially comply with all applicable laws, rules, regulations, and ordinances, whether federal, State, or local; and
4. The applicant has agreed by official resolution to adopt and place into effect a schedule of fees and charges or the application of other sources of revenue which will provide adequate funds for proper operation, maintenance, and administration of the project and repayment of all principal and interest on the loan.

(2) Assessment. The Department of Environment, Health, and Natural Resources may require any applicant to file with its application an assessment of the impact the project for which the funds are sought will have upon meeting the facility needs of the area within which the project is to be located.

(3) Hearing by the Department of Environment, Health, and Natural Resources or the Local Government Commission. A public hearing may be held by the Department of Environment, Health, and Natural Resources or the Local Government Commission at any time on any application. Public hearings may also be held by the Department of Environment, Health, and Natural Resources in its discretion upon written request from any citizen or taxpayer who is a resident of the county or counties in which the project is to be located or a resident of the local government unit that proposes to borrow moneys under this act, if it appears that the public interest will be served by the hearing. The written request shall set forth each objection to the proposed project or other reason for requesting a hearing on the application and shall contain the name and address of the persons submitting it. The Department of Environment, Health, and Natural Resources may consider all written objections to the proposed project and other statements along with the application including any significant considerations on facility needs and shall determine if the public interest will be served by a hearing. The determination by the Department of Environment, Health, and Natural Resources shall be conclusive and all written requests for a hearing shall be retained as a permanent part of the records pertaining to the application.

(4) Petition for Vote. A petition, demanding that the question of whether to enter into a loan agreement with the State under this act be submitted to voters, may be filed with the clerk of the local government unit applying for the loan within 15 days after the public hearing required by this section. The petition's sufficiency shall be determined and a referendum, if any, shall be conducted, according to the standards, procedures, and limitations set out in G.S. 159-60 through G.S. 159-62.

(d) Priorities.

(1) Determination. Determination of priorities to be assigned each eligible project shall be made semiannually by the Department of Environment, Health, and Natural Resources during each fiscal year. Every eligible project shall be considered by the Department of Environment, Health, and Natural Resources with every other project eligible during this same priority period.

(2) Priority Factors. All applications for loans under this act shall be assigned a priority by the Department of Environment, Health, and Natural Resources. The Department of Environment, Health, and Natural Resources shall establish by rule the priority factors criteria.

(3) Assignment of Priority. A written statement relative to each priority assigned shall be prepared by the Department of Environment, Health, and Natural Resources and shall be attached to the application. The priority assigned shall be conclusive.

(4) Failure to Qualify. If an application does not qualify for a loan as of the prior period in which the application was eligible for consideration by reason of the priority assigned, the application shall be considered during the next succeeding priority period upon request of the applicant. If the application again fails to qualify for a loan during the second priority period by reason of the priority assigned, the application shall receive no further consideration. An applicant may file a new application at any time and may amend any pending application to include additional data or information.

(5) Withdrawal of Commitment. Failure of an applicant within one year after the date of acceptance of the loan to arrange for necessary financing of the proposed project or award of the contract of the construction of the proposed project shall constitute sufficient cause for withdrawal of the commitment. Prior to withdrawal of a commitment, the Department of Environment, Health, and Natural Resources shall give due consideration to any extenuating circumstances presented by the applicant as reasons for failure to arrange necessary financing or to award a contract, and the commitment may be extended for an additional period of time if, in the judgment of the Department of Environment, Health, and Natural Resources, the extension is justified.

(e) Disbursement. To be eligible to receive the loans provided for in this section, a local government unit must arrange to borrow the amounts necessary pursuant to rules adopted by the Local Government Commission. No funds shall be disbursed until the Department of Environment, Health, and Natural Resources gives a certificate of eligibility to the effect that the applicant meets all eligibility criteria and that all procedural requirements of this act have been met. The maximum principal amount of a loan shall be one hundred percent (100%) of the cost of any eligible project.

(f) Intercept. The governing body of a local government unit shall by resolution authorize to be included in its loan agreement a provision authorizing the State Treasurer, upon failure of the local government unit to make a scheduled repayment of the loan, to withhold from the local government unit any State funds that would otherwise be distributed to the local government unit in an amount sufficient to pay all sums then due and payable to the State as a repayment of the loan. In such event, notwithstanding any other provision of law, the State Treasurer is authorized to withhold and apply such funds to the repayment of the loan, except that such funds shall not be withheld if (i) before the execution of the loan agreement, such funds have been legally pledged to secure special obligation bonds or other obligations of the local government unit, or (ii) after the execution of the loan agreement, such funds are legally pledged to secure special obligation bonds or other obligations of the local government unit as authorized in this subsection. After the execution of a loan agreement, all or any portion of the State funds specified in the loan agreement to be so withheld may be pledged to secure special obligation bonds or other obligations of the local government unit only with the prior written consent of the State Treasurer.

The State Treasurer shall notify the Secretary of Revenue and the State Controller of the amount to be withheld from the local government unit, and the Secretary of Revenue and the State Controller shall transfer to the State Treasurer the amount so requested to be applied by the State Treasurer to the repayment of the loan.

(g) Inspection. Inspection of a project for which a loan has been made under this act may be performed by qualified personnel of the Department of Environment, Health, and Natural Resources or may be performed by qualified engineers registered in this State approved by the Department of Environment, Health, and Natural Resources. No person shall be approved to perform inspections who is an officer employed by the local government unit to which the loan was made or who is an owner, officer, employer, or agent of a contractor or subcontractor engaged in the construction of the project for which the loan was made. For the purpose of payment of inspection fees, inspection services shall be included in the term "cost" as used in this act.

(h) Rules. The State Treasurer, the Local Government Commission, and the Department of Environment, Health, and Natural Resources may adopt, modify, and repeal rules necessary for the administration of their respective duties under this act. Uniform rules may be jointly adopted where feasible and desirable, and no rule, jointly adopted, may be modified or revoked except upon concurrence of all agencies involved.

(i) Federal Grants and Loans. In order to carry out the purposes of this act to secure the greatest possible benefits to the citizens of this State of the funds appropriated,

the State Treasurer, the Local Government Commission, and the Department of Environment, Health, and Natural Resources shall adopt rules and criteria, not inconsistent with provisions of this act, as are necessary and appropriate to conform to regulations for federal grants and loans for any of the purposes set forth in this act.

(j) Reports. The Department of Environment, Health, and Natural Resources shall prepare and file each year on or before July 31 with the Joint Legislative Commission on Governmental Operations a report for the preceding fiscal year concerning the allocation and making of loans authorized by this act. The report shall set forth for the preceding fiscal year:

(1) Itemized and total allocations of loans authorized and unallocated funds for the loan program as of the end of the preceding fiscal year;

RESIGNATION OF SENATOR HUNT

Senator Hunt, representing the 13th Senatorial District, submits a letter and the Chair orders the Reading Clerk to read as follows:

THE NORTH CAROLINA GENERAL ASSEMBLY
Senate Chamber
State Legislative Building
Raleigh 27601-2808

June 30, 1993

The Honorable Dennis A Wicker, President of the Senate
The Honorable Marc Basnight, President *Pro Tempore* of the Senate
The Honorable Members of the Senate
Legislative Building
Raleigh, North Carolina 27601-2808

Dear Mr. President and Senate Colleagues:

Beginning in 1973 and for 11 consecutive years, the citizens of Durham honored me with the privilege of representing them as a member of the Durham City Council. Since 1984, I have been privileged to serve in the North Carolina State Senate, representing the citizens of the thirteenth senatorial district.

On April 30th of this year, I was further honored when Governor Hunt appointed me to the North Carolina Utilities Commission, an action which the Legislature confirmed on June 10.

I am slated to take the oath and assume a seat on the Commission on Monday, July 26, 1993. This will afford me the honor and privilege of serving the good citizens of this great State in a new capacity.

So that I may be prepared to take the oath on July 26, I herewith submit to you my resignation from the North Carolina State Senate effective at the close of business on Saturday, July 24, 1993.

It has been a great privilege and a high honor for me to have served with members of this great body for nine years. I will miss each of you.

Thank you so much.

With kindest personal regards, I am

Yours sincerely,
S/Ralph A. Hunt

The members of the Senate acknowledge the service of Senator Hunt. Remarks are offered and on motion of Senator Martin of Guilford, the remarks of Senator Hunt and the members speaking are spread upon the Journal, as follows:

By Senator Hunt:

"Thank you, Mr. President, and ladies and gentlemen of the Senate. Someone just said to me just a few moments ago that the "dirty dozen" is about to shrink by one. It has been tough for me to get to this point, and I've held it out as long as I possibly can, but it has come time now when I must say to you, 'goodbye.'

"Ordinarily, it is somewhat of a routine task, or routine occasion, to say 'goodbye.' But, not on an occasion such as this. Simply because I'm saying 'goodbye' to a group of friends. But not just a group of friends—a group of **special** friends.

"And to reflect just a little bit as to when all of this began, I'll go back to 1984 and over at the Velvet Cloak Hotel, when then Lieutenant Governor-Elect Bob Jordan gathered us there, and among the group there were eight of us who were freshmen of the Class of 1985. And of those eight, there are four survivors, and all four of those survivors are located in this particular quadrant. Perhaps that reflects something about our resiliency—those four of us who were members of that particular class. But, as I recall, we sort of clustered in groups, small groups, over there just before breakfast was served. And among the group who gathered then, Senator Speed, and he welcomed us, asked some of us questions about where we were from and what we were all about. And the group began to disband. And, of course, there were two of us who were left in the group of which we were a part, and we began to talk, we began to sort of scrutinize and analyze one another, and the person with whom I was speaking, I noticed he was somewhat of a funny-looking fellow—he sort of talked funny, but I just felt that he had a great deal of potential. And, of course, I was correct on all three counts. That potential at this point in time has developed into his being the leader of this organization, Marc Basnight. I think, as a result of that particular meeting, a wonderful friendship developed between the two of us. A friendship which has, for more than eight years lasted, and a friendship which I believe will be for an everlasting period. Thank you for your friendship, Marc.

"Bob Martin, I don't know where he is at this point in time, but we became suitemates in 1985, and of course we began to chat about one thing or another over the years, and we became the best of friends. And it was sort of sad for both of us when I moved from the back row to this particular point. But I wanted to say to Bob, wherever he is, thank you so much for the wonderful friendship which we developed over the years.

"I want to say to all of my colleagues, but I want to give a special thanks also to the members of the Legislative Black Caucus. You know, coming here when I came in 1985, there were three of us here who are Black in this Body, and of course there are lots of thoughts that ran through my mind as to how are we going to fare in such a setting as that. But over the years, beginning with the three members of the Legislative Black Caucus and who are also members of the Senate, and the other, I believe, eight members—there were eleven of all together at one time, who were members of the House—we have made very broad strides in promoting the efforts which you would think that we would have a special interest in, and efforts which, perhaps, without our presence would not receive the attention which they have received over the years. And over time we have increased to twenty-five in numbers. And we are here as a group, not just to represent one segment of this population. We are here to represent the entire population of the State of North Carolina. But in doing so, we must—we must place special emphasis on certain areas which otherwise perhaps would not receive the level of attention were we not present to make sure that that attention was given.

"And let me just take another minute or so, Mr. President and ladies and gentlemen, to reflect on where I came from to get to this particular point. And of course, it's a very unlikely ending. Simply because there were all of the trappings for, let's just say, a drifting kind of situation for me, as a result of the environment which I grew up in. And of course, perhaps it was a good chance for whichever way the wind blew is the direction

in which I would have gone. But you know, years ago our vocabulary was not a broad as it has developed into over in recent years, and there have been so many contemporary terms which have been developed, which have good, positive meanings and sometimes they are catch words, but other times they are signals and negative signals as they are interpreted by a number of people. You know, years ago, we used to use and hear the term often, 'helping hand.' And the primary reason that I'm able to stand here today and speak to you in the capacity in which I speak is because of the "helping hands," and that's plural, which I received over time.

"Number one, I was born, and lucky to be born with very strong parents. Parents who believed in working hard. Parents who not only believed and practiced, but they promoted a strong work ethic. Although there were eight of us children, there was never a day when my parents received any public assistance, and had they been offered any, they would have refused. There was never a day when we received a favor from a neighbor whereby we did not give something in return. Simply because we believed that man and woman given help and given strength, should be able to make some provision for themselves, but there should be help available when help was needed. And of course I think those experiences have borne heavily upon the political philosophy I have taken as it relates to fiscal matters.

"And I just want to mention this term, 'helping hand,' once again. Now today that's translated into a number of different comments, and one of them is affirmative action. We talk about goals, we talk about '_____,' we talk about, what do you call them, quotas, which to some extents is a 'no, no' in the minds of some people. But my reason for being here today and not winding up blowing in the wind and going in whichever direction the wind blew, is because back then I was able to receive a helping hand, which to me is synonymous with affirmative action. In addition to my parents' strength and strong direction, there was a little school down in Charlotte, Johnson C. Smith University, Senator Richardson, which gave me a helping hand, and as a supporter of such institutions as Johnson C. Smith, there was the United Negro College Fund. And when I went away to school, I went broke. And I had very little knowledge or thought as to where the support would come from. But somebody said to me, 'You get to Johnson C. Smith University, and they will find a way for you.' Well, I was able to get to Johnson C. Smith University by thumbing a ride. And the rest is history as it relates to Johnson C. Smith University.

"In later years I found out what happened to cause my stay to be, over a period of more than four years there, to graduate. And it was because of what the United Negro College Fund had done, and I had been afraid to ask where the money was coming from, simply because I thought they might say, 'Well, this is a loan, and by the way we forgot to bill you for that loan, and you owe the principal plus interest.' So, therefore, I did not ask and once I found out, I was very much relieved that there was no payback required of the funds.

"And then, of course, it's very ironic that Leslie Winner just walked into the door, because I'm about to continue my comments with reference to that helping hand, or affirmative action kind of help which I received to cause me to do what I'm doing here this evening, as opposed to perpetuating, perhaps, a negative kind of future, which could very well have been my experience. I received some very good help from some people in the form of affirmative action. They did not have to do it, but they did it because they felt that it would develop in much more of a positive manner if they did, as opposed to not doing it. And of course these people left just happened to have been Jews. They helped me a lot then as I was moving through my educational process, and of course again as I was moving into the world, and of course entering into business. Another group of people who happened to have also been Jews made a sweetheart deal with me, an offer to me which I could not refuse. And as a result of those kinds of assistances which I have

received, which we can refer to as 'helping hands,' or we can refer to it as affirmative action. They are both the same.

"Those are the reasons who I can stand here today and submit to you my resignation from the North Carolina State Senate after having served here for more than eight years, as opposed to having drifted and perhaps having gone down the wrong road and the wrong path, creating problems not only for myself, but problems for society. And of course it also reduces the possibility and the probability that the next generation, my children, because they will not have to travel that path which I was vulnerable to and could very well have taken. And then their children are going to be able to—it's a perpetual kind of thing. When we help people to get on the right track, it helps us all.

"So I simply say to you, if there's anything I can leave with you here upon my departure, is that be open-minded to helping people where there's a need, where there's some indication that the help given would certainly eliminate the negative kinds of problems which we have just spend about an hour talking about here—prisons, and how long we are going to keep people incarcerated, and how much it's going to cost us in the process of doing it.

"Let's just help people, and let's just don't help one segment of people. Let's just don't, as an example, put an additional $30 million into the Venture Capital Fund, which I think is a very good thing to do. That's going to help some people, it is a form of affirmative action because its venture capital that can be used in hiring situations. People must have an opportunity to not only succeed, but they also must have an opportunity whereby there might be failure. And they must have that opportunity.

"So let's spread our generosity out. Let's spread it out to the extent that people will feel that government is an institution that works for them, as a part of that institution, not because they are the bottom segment of that institution, but that there is something which government can do to help to cause them to enjoy a greater quality of life and a better lifestyle. If there's nothing else I can leave with you, please, just listen to those comments, and I think the individuals who are helped will be much better off, and as a result certainly the State of North Carolina will be better off.

"Let me just say to each and every one of you, thank you for your friendship. I love you, and with those comments, let me just say, 'goodbye.'"

By Senator Basnight:

"Mr. President, Members of this Body, I was one of the eight, as you heard, and I still am one of those eight, and I still, Ralph, from those very early days realized and knew then that you were some kind of special to the people of this State. And you have proven that beyond any question that any man could ever raise. You've given to, not just Durham, not just to your family and your community, but you've given of yourself for eight years to make life better for people of all color, and you've done it very unselfishly. You've done it with a desire and a willingness to make sure that opportunity was afforded all people. You've never asked for anything that you weren't willing to give yourself. You're a man of the highest of standards, and you're a friend of mine for life, and I'm so proud, so very proud, to have you. And, Ralph, we all in this Senate will miss you a great deal, and we can't describe to you, no one here can, what you've meant to us and everyone else. We offer you God Speed and God Bless. We know things will come to you properly. Work will not be demanded of you for what will be rewarded you one day. You're a wonderful human being, and I'm so happy and glad I met you and got to share these little times together with you. Thanks so very much."

SMALL SCHOOL FORMULA/HOLD HARMLESS PROVISION

Sec. 52. (a) The General Assembly finds that the data to enable the Department of Public Instruction to determine eligibility for small school system supplemental funding for the 1993-94 fiscal year was not available from the Department of Revenue until July 8, 1993; therefore, this determination was made well after the boards of county commissioners had acted on the boards of education budgets for the 1993-94 fiscal year. While considering the budgets for the Ashe and Jackson County School Administrative Units, the boards of county commissioners of those counties assumed that small school system supplemental funding would be available for the 1993-94 fiscal year. Therefore, for the 1993-94 fiscal year only, notwithstanding the provisions of Section 138.1 of Chapter 321 of the 1993 Session Laws, the State Board of Education shall allocate funds appropriated for small school system supplemental funding in this act to the Ashe and Jackson County School Administrative Units. Each of these county school administrative units shall receive for the 1993-94 fiscal year the same amount it received for the 1992-93 fiscal year.

(b) Section 138(j) of Chapter 321 of the 1993 Session Laws requires the Department of Revenue to provide to the Department of Public Instruction a final report prior to May 1 of each year of all data necessary to determine eligibility for small school system supplemental funding; therefore, (i) all boards of county commissioners will have this information when they consider the budgets for their county school administrative units, and (ii) the General Assembly does not intend to hold counties harmless in future fiscal years.
